 Europe s borders have always been historically ambiguous and dynamic whereby borders shift and change character and
 new borders replace older ones By focusing upon the title question where are Europe s new borders this volume looks at the
 present state of European bordering and questions the often taken for granted relationships between borders borderers and
 the bordered While each chapter concentrates on a different but overlapping border issue or perspective they are united
 through their focus on the level of everyday bordering practices and experiences as well as the meaning that borders have
 upon all stakeholders and the relationships between them To talk about border meaning including the perspective of the
 researchers themselves and how that meaning continually re creates and is re created by bordering practices is to critically
 question where important borders lie why and for whom do they matter and how are they imposed maintained and resisted
 As a result the chapters engage with issues of border violence the power of maps and symbols carto politics migrant mobility
 gender and the rise of the far right in Europe Taken together this edited collection will be of interest to border scholars as
 well as students of European politics more generally This book was previously published as a special issue of the Journal of
