Taken Captive Ooka Shohei,1952 The harsh conditions the daily routines that occupy a prisoner s time and above all the psychological struggles and behavioral quirks of captives forced to live in close confinement are conveyed with devastating simplicity and candor Throughout the author constantly probes his own conscience questioning motivations and decisions What emerges is a multileveled portrait of an individual determined to retain his humanity in an uncivilized environment

Japanese Prisoners of War in India, 1942-46 T.R. Sareen,2021-10-25 This is the first in depth study to examine the history treatment and conditions of more than 2500 Japanese prisoners of war who were captured by British forces on the Burma front and kept in India during the period 1942 46 Drawing on original sources including the National Archive of India the International Committee of the Red Cross as well as limited government records in the UK USA and Japan together with some former Japanese POWs first hand accounts the author has been able to provide a detailed picture of the way of life of these prisoners the organization of camp life as well as the policies that governed their incarceration In so doing the author fills a significant gap both in Pacific War studies and prisoner of war history The manner of the capture and surrender of the Japanese was unique in that they were captured for the most part when they were either seriously wounded or sick or had become unconscious due to hunger or disease while fighting on the Arakan Imphal and Kohima Burma fronts A few in good health gave themselves up but there was no mass surrender even by a single regiment or unit ever took place thus giving rise to the myth that no Japanese soldier ever became a prisoner of war This account sets the history straight and will be widely welcomed by the generalist and specialist alike particularly those studying the history of this period including POW history as well as students of international law and the work of international agencies such as the Red Cross **Reassessing the**

manhood ideals loyal and disloyal soldiers and agents of change in society The book's eleven chapters cover conflicts involving Americans ranging from colonial warfare on the Creek Georgia border in the late eighteenth century the American Revolution the Civil War the Great War World War II to twenty first century U S drone warfare This long historical horizon enables the reader to go beyond the prison camp experience of POWs to better understand the many ways they influence the nature and course of military conflict Useful Captives shows the vital role that prisoners of war play in American warfare and reveals the cultural contexts of warfare the shaping and altering of military policies the process of state building the impacts upon the economy and environment of the conflict zone their special place in propaganda and political symbolism and the importance of public history in shaping national memory *The Enemy in Our Hands* Robert C. Doyle, 2010-03-19

Revelations of abuse at Baghdad's Abu Ghraib prison and the U S detention camp at Guantanamo Bay had repercussions extending beyond the worldwide media scandal that ensued The controversy surrounding photos and descriptions of inhumane treatment of enemy prisoners of war or EPWs from the war on terror marked a watershed moment in the study of modern warfare and the treatment of prisoners of war Amid allegations of human rights violations and war crimes one question stands out among the rest Was the treatment of America's most recent prisoners of war an isolated event or part of a troubling and complex issue that is deeply rooted in our nation's military history Military expert Robert C Doyle's *The Enemy in Our Hands* America's Treatment of Prisoners of War from the Revolution to the War on Terror draws from diverse sources to answer this question Historical as well as timely in its content this work examines America's major wars and past conflicts among them the American Revolution the Civil War World Wars I and II and Vietnam to provide understanding of the United States treatment of military and civilian prisoners *The Enemy in Our Hands* offers a new perspective of U S military history on the subject of EPWs and suggests that the tactics employed to manage prisoners of war are unique and disparate from one conflict to the next In addition to other vital information Doyle provides a cultural analysis and exploration of U S adherence to international standards of conduct including the 1929 Geneva Convention in each war Although wars are not won or lost on the basis of how EPWs are treated the treatment of prisoners is one of the measures by which history's conquerors are judged

The Anguish of Surrender Ulrich A. Straus, 2011-10-01 On December 6 1941 Ensign Kazuo Sakamaki was one of a handful of men selected to skipper midget subs on a suicide mission to breach Pearl Harbor's defenses When his equipment malfunctioned he couldn't find the entrance to the harbor He hit several reefs eventually splitting the sub and swam to shore some miles from Pearl Harbor In the early dawn of December 8 he was picked up on the beach by two Japanese American MPs on patrol Sakamaki became Prisoner No 1 of the Pacific War Japan's no surrender policy did not permit becoming a POW Sakamaki and his fellow soldiers and sailors had been indoctrinated to choose between victory and a heroic death While his comrades had perished he had survived By becoming a prisoner of war Sakamaki believed he had brought shame and dishonor on himself his family his community and his nation in effect

relinquishing his citizenship Sakamaki fell into despair and like so many Japanese POWs begged his captors to kill him Based on the author's interviews with dozens of former Japanese POWs along with memoirs only recently coming to light *The Anguish of Surrender* tells one of the great unknown stories of World War II Beginning with an examination of Japan's prewar ultranationalist climate and the harsh code that precluded the possibility of capture the author investigates the circumstances of surrender and capture of men like Sakamaki and their experiences in POW camps Many POWs ill and starving after days wandering in the jungles or hiding out in caves were astonished at the superior quality of food and medical treatment they received Contrary to expectations most Japanese POWs psychologically unprepared to deal with interrogations provided information to their captors Trained Allied linguists especially Japanese Americans learned how to extract intelligence by treating the POWs humanely Allied intelligence personnel took advantage of lax Japanese security precautions to gain extensive information from captured documents A few POWs recognizing Japan's certain defeat even assisted the Allied war effort to shorten the war Far larger numbers staged uprisings in an effort to commit suicide Most sought to survive suffered mental anguish and feared what awaited them in their homeland These deeply human stories follow Japanese prisoners through their camp experiences to their return to their welcoming families and reintegration into postwar society These stories are told here for the first time in English *Designing History in East Asian Textbooks*

Gotelind Mueller, 2011-02-01 This book analyses the efforts throughout East Asia to deploy education for purposes of political socialization and in particular in order to shape notions of identity The chapters also examine the trend of common textbook initiatives which have recently emerged in East Asia with the aim of helping to defuse tensions arguably fuelled by existing practices of mutual misrepresentation These are analysed in relation to the East Asian political context and compared with previous and ongoing endeavours in other parts of the world particularly Europe which have been keenly observed by East Asian practitioners Written by a group of international education experts chapters discuss the enduring focus on the role of curricula in inculcating homogenous visions of the national self and indeed homogenized visions of significant others Including contributions from scholars and curriculum developers involved personally in the writing of national and multinational history textbooks this book will be of interest to students and scholars of Asian education Asian history and comparative education studies Gotelind Mueller is Professor of Chinese Studies University of Heidelberg Germany **The**
