Defending and Parenting Children Who Learn Differently Scott Teel, 2007-05-30 Teel incorporates the fascinating story of Nancy Edison's love for her son Thomas who had been labeled unteachable then presents us with the wider array of and issues for children who learn differently We all know Thomas Edison was a genius of seemingly limitless imagination Yet few know he was a failure in elementary school Teel shows us how Edison's mother Nancy guided the boy deemed a dunce by officials even assumed mentally retarded by his father to become one of the greatest inventors of all time Edison's progressive and imaginative teaching methods hold lessons even today for all children who learn differently from conventional methods as well as for the parents and teachers who care about them Teel also explains how parents can negotiate the educational maze created by the Individuals with Disabilities Education Act IDEA and the No Child Left Behind Act NCLB An Individualized Education Program is explained in detail and options such as enlisting the assistance of a professional advocate are also discussed The latest research about current medication therapies and the origins plus potential benefits of ADHD are reviewed A leading professional advocate explains what every parent needs to know about the public school system Other topics addressed include the effectiveness of home schooling and parental and student rights An extensive list of local and national resources is also offered

Pediatric Neuropsychology Case Studies Jennifer Niskala Apps, Robert F. Newby, Laura Weiss Roberts, 2008-12-23 In the recent literature the most influential case study books in neuropsychology are in the adult realm Pediatric neuropsychology is a rapidly developing field with increasingly greater influence in the assessment diagnosis early identification and treatment of childhood illnesses This book will provide the first centralized comprehensive resource for case studies in pediatric neuropsychology Not only will this supply a valuable compilation for the growing numbers of professionals in this field but will also serve as an innovative and appealing resource for therapists teachers and others interested in child development This book will be structured in such a way that readers can easily access individual cases of interest as well as related areas of dysfunction Section breakdowns will be provided in order to highlight the combined focus of case presentations in acquired neuropsychological dysfunction as well as developmental disorders Each section will begin

with an introductory chapter highlighting the salient feature of the concept and providing brief up to date reviews of the current research and theories Within each global section individual case studies will serve as stand alone chapters Contributing authors will be provided extensive guidance and coaching with regards to the standard format and information to be included in each chapter The first section of this book will present cases involving neurological disorders The intention of this section is to provide not only classic examples of neurological dysfunction in children but also to provide interesting cases of unique or remarkable presentations The second section will present an accumulation of cases representing both common and progressive conceptualizations of developmental disabilities Section three has been designed to highlight cases which often present complex issues to neuropsychologists The case examples in this section will highlight the use of alternative treatments pathologies that are often a source of inquiry and situations that lack the more rigorous scientific data often utilized in other diagnostic procedures Additionally this section may include chapters on common differential diagnosis dilemmas in clinical practice Often multifaceted and even contradictory evidence can arise during evaluations resulting in complex or problematic situations for the clinician Such examples are difficult by their nature to forecast but rather would be added during the book s development as they occur
