lead with strength and confidence in a world that tries to emasculate you Find out how to build a life where your male identity is celebrated not demonized If you want to take back control of your life and stop being a second class citizen in a female dominated society then buy this book today Your freedom and strength are just a few pages away *The Divine Mentor* Wayne Cordeiro,2008-10-01 Many believers settle for a spiritual routine that lacks God s presence But what they truly want and truly need is a dynamic vital and intimate relationship with God Here Wayne Cordeiro gently but directly shows readers how to move from routine to relationship from mundane actions to fresh encounters by learning to hear Him speak to them through the Bible Through stories lessons and anecdotes Cordeiro equips readers to listen to the promptings of the Holy Spirit as they read God s Word enabling them to transform their daily quiet time with the Lord **A Simple Government** Mike Huckabee,2011-02-22 We need a simple government Don t get me wrong I know that many of the nation s problems are highly complex But I also know that the governing principles that can solve them if we work together are simple Armed with little money but a lot of common sense former Arkansas Governor Mike Huckabee surprised the nation by coming in second during the 2008 Republican presidential primaries He connected with millions of voters by calling for a smaller simpler government that would get out of the way when appropriate Unfortunately there weren t quite enough of those voters to prevent the election of Barack Obama Since then President Obama s message has morphed from hope and change to tax and spend and borrow and spend and over regulate and spend The stimulus failed to stop the recession the deficit exploded to unimaginable heights and the Democrats jammed through Congress a financial reform bill that didn t really reform anything and a healthcare monstrosity that gave the government more power over our personal lives than ever Meanwhile Huckabee has continued to be the voice of common sense conservatism through his television talk show his radio commentaries and his lectures around the country Now he s written a book that sums up the twelve things we really need from Washington to get the country back on the right track These twelve essential truths will have you nodding in agreement whether you re a Republican an Independent or even an open minded Democrat They can help us put aside our differences tone down the partisan rancor and return to the simple principles of the Founding Fathers liberty justice personal freedom and civic virtue And they can help us tackle even the most seemingly complicated of today s problems For instance You can t spend what you don t have you can t borrow what you can t pay back Families businesses towns cities and states all have to balance their budgets or face dire consequences Why shouldn t the federal government be held to the same standard And if that means making some hard choices now it s a far better alternative than saddling our kids and grandkids The further you drift from shore the more likely you are to be lost at sea The Founders expected the federal government to be subordinate to state and local governments How can politicians in DC know the best way to help farmers in Iowa autoworkers in Michigan or teachers in California They can t So every problem should be solved at the most local level capable of solving it Bullies in the playground only understand one thing There s a time and place for diplomacy but we can t protect the country just by

negotiating with our enemies We need a strong national defense and a counterterrorism policy that focuses on effectiveness not political correctness The most important form of government is the family In the long run the only way to ensure prosperity safety and equal opportunity is to make sure we raise our children to be ethical and productive citizens No bureaucracy can replace parents in that essential role so we have to do everything possible to help parents do their job A Simple Government will inspire any American looking forward to a better future **The Government Is Not Your Daddy** Steven Rotter,Bradley Rotter,2010-07-20 *After Emancipation* Kirt von Daacke,Andrea Douglas,2024-03-08 Assessing a university s legacy in the age of segregation This anthology reckons with the University of Virginia s post emancipation history of racial exploitation Its fifteen essays highlight the many forms of marginalization and domination at Virginia s once all white flagship university to uncover the patriarchal nativist and elitist assumptions that shaped university culture through the late nineteenth century and well into the twentieth Including community responses ranging from personal reflections to interviews with local leaders to poems this accessible volume will be essential reading for anyone with ties to UVA or to Charlottesville as well as for anyone concerned with the legacy of slavery and segregation in America s universities **The New Village Green** Stephen Morris,the Editors of Green Living,2007-09-01 The village green is the focal point of any community a gathering place where the best ideas take root and the brightest voices are heard The New Village Green gathers some of the best ideas and brightest voices of the green community some famous and familiar others fresh and unknown Each tells an absorbing story and collectively they comprise a powerful chorus that profiles the current state of the environment This remarkable book gathers wisdom and insight from a compelling and thought provoking virtual community Each contributor brings a unique perspective that mingles reverence for the environment with provocative thoughts for the future Topics range from spirituality to solar panels and just like a real village green are juxtaposed with opinions from the new village people including Writers Bill McKibben and Michael Pollan Scientists James Lovelock and Donella Meadows Spiritual leaders Gandhi and Buddha Practical homespun topics are given equal time Good reasons to embrace alternative currencies Tips for growing great garlic Meant to be devoured in one sitting or sipped a little at a time this book springboards the green movement into the future by acknowledging its roots in the past Rachel Carson Paul Ehrlich and Helen and Scott Nearing are as relevant today as the Slow Food Movement and Peak Oil This book will touch the heart of anyone who lives with conscience and hope **MONEY Master the Game** Anthony Robbins,Tony Robbins,2016-03-29 Bibliography found online at tonyrobbins.com/masterthegame Page 643
