The Routledge Handbook of Women's Experiences of Criminal Justice Isla Masson, Natalie Booth, 2022-10-25

This Handbook brings together the voices of a range of contributors interested in the many varied experiences of women in criminal justice systems and who are seeking to challenge the status quo. Although there is increasing literature and research on gender and certain aspects of the criminal justice system often Western focused there is a significant gap in the form of a Handbook that brings together these important gendered conversations. This essential book explores research and theory on how women are perceived, handled and experience criminal justice within and across different jurisdictions with particular consideration of gendered and disparate treatment of women as law breakers. There is also consideration of women's experiences through an intersectional lens including race and class as well as feminist scholarship and activism. The Handbook contains 47 unique chapters with nine overarching themes: Lessons from history and theory; Routes into the criminal justice system; Intersectionality; Sentencing and the courts and community punishments; Specific offences; Incarcerated women's experiences; Mothers and families; Rehabilitation and reintegration; Practitioner relationships; and each theme includes contributions from different countries as well as the experiences of contributors from different stages in their own journey. International and interdisciplinary in scope, this Handbook is essential reading for scholars and students of criminology, sociology, social policy, social work and law. It will also be of interest to practitioners such as social workers, probation officers, prison officers and policy makers.

The International Law on the Rights of the Child Geraldine van Bueren, 2021-11-01. Only available in paperback version. ISBN 90 411 1091 7. This volume draws upon the author's own experience to highlight the complexities behind the global violations of children's rights. Analysis and description are interwoven to provide a coherent study of the international status of children and the rights which attach to this status both for those familiar and unfamiliar with international law. The author demonstrates the potential of international law in protecting the rights of children even in states which are restructuring their economies. To be effective, international law cannot be used in isolation and the text seeks to place the rights of the child in their cultural and historical contexts. All royalties from *The International Law on the Rights of the Child* are being donated to the International Save the Children Alliance to assist them in their work with children. Ms van Bueren combines skilfully an enormous amount of factual material with careful legal analysis and comment; this book will rapidly become indispensable to children's rights lawyers.

C. M. Chinkin, University of Southampton. Among numerous publications dealing with the subject of promotion and protection of the rights of the child issued up to date, G. Van Bueren's *The International Law on the Rights of the Child* is the most serious monograph in the field of international law.

Veerman, 2021-09-27 It is often said that you can judge a society by the way it treats its weaker members This book takes this theme and examines the ways in which different aspects of children s lives are treated in a number of societies To this end it uses the conduit of children s rights The importance of children s rights as an ideology and in practice is critically examined by a group of academics and practitioners with an international reputation and wide experience and insight The book offers an understanding of the moral foundations of children s rights and enables all those in whatever discipline to gain a deeper understanding of an issue which has assumed major importance with the passing of the UN Convention on the Rights of the Child Youth Justice: Theory & Practice Jane Pickford, 2012-12-06 This innovative text examines contemporary issues in youth justice in the light of the sweeping reforms introduced by the Crime and Disorder Act 1998 and the Youth Justice and Criminal Evidence Bill 1999 It brings together current debates in both the practice and theory of youth justice intervention and in the light of the governments inter agency approach to the problem of youth criminality provides an inter disciplinary examination of these discussions Including contributions from both academics magistrates and social work practitioners it is a useful text for students of criminology law and social work as well as a valuable resource for youth justice practitioners Standards for the Administration of Juvenile Justice United States. National Advisory Committee for Juvenile Justice and Delinquency Prevention, 1980 **The Transferring of America's Youth** Sheri Jenkins Keenan, 2021-09-23 A separate juvenile justice system was established in the United States in 1899 with a goal of diverting juvenile offenders from the harsh punishments of the adult criminal court and encouraging rehabilitation based on the individual needs of the offender This new juvenile court was set up as a civil or chancery court with informal proceedings and discretion left to the juvenile court judge Furthermore juvenile court proceedings were closed to the public and juvenile records were to remain confidential However as the decades progressed juveniles became increasingly involved in more serious crimes This generated a growing fear among lawmakers educators and the public which resulted in a number of get tough policies and strategies By the 1990s the most popular approach in dealing with violent juvenile crime was for states to make it easier or to require the prosecution of juveniles as adults in criminal court Research demonstrates that such

policies may be counter productive increase rather than decrease recidivism and cause harm to offenders their families and the community This volume provides a comprehensive historical review of knowledge surrounding the transfer of American s youth from the rehabilitative individualized treatment of the juvenile justice system to the adult criminal justice system
