## **Taking Glasnost Seriously Toward An Open Soviet Union:**

Taking Glasnost Seriously Michael Novak, 1988 This book examines the Soviet Union and the gradual process of liberalization in its press and government

**Intermarriage from Central Europe to Central Asia** Adrienne Edgar, Benjamin Frommer, 2020-06-01 Intermarriage from Central Europe to Central Asia examines the practice and experience of interethnic marriage in a range of countries and eras from imperial Germany to present day Tajikistan In this interdisciplinary volume Adrienne Edgar and Benjamin Frommer have drawn contributions from anthropologists and historians The contributors explore the phenomenon of intermarriage both from the top down in the form of state policies and official categories and from the bottom up through an intimate look at the experience and agency of mixed families in modern states determined to control the lives and identities of their citizens to an unprecedented degree Contributors address the tensions between state ethnic categories and the subjective identities of individuals the status of mixed individuals and families in a region characterized by continual changes in national borders and regimes and the role of intermarried couples and their descendants in imagining supranational communities The first of its kind Intermarriage from Central Europe to Central Asia is a foundational text for the study of intermarriage and ethnic mixing in Eastern Europe and Eurasia

**Globalizing Human Rights** Christian Peterson, 2012-03-12 Globalizing Human Rights explores the complexities of the role human rights played in U S Soviet relations during the 1970s and 1980s It will show how private citizens exploited the larger effects of contemporary globalization and the language of the Final Act to enlist the U S government in a global campaign against Soviet Eastern European human rights violations A careful examination of this development shows the limitations of existing literature on the Reagan and Carter administrations efforts to promote internal reform in USSR It also reveals how the Carter administration and private citizens not Western European governments played the most important role in making the issue of human rights a fundamental aspect of Cold War competition Even more important it illustrates how each administration made the support of non governmental human rights activities an integral element of its overall approach to weakening the international appeal of the USSR In addition to looking at the behavior of the U S government this work also highlights the limitations of arguments that focus on the inherent weakness of Soviet dissent during the early to mid 1980s In the case of the USSR it devotes considerable attention to why Soviet leaders failed to revive the international reputation of their multinational empire in face of consistent human rights critiques It also documents the crucial role that private citizens played in shaping Mikhail Gorbachev s efforts to reform Soviet style socialism

*Toward a Theology of the Corporation* Michael Novak, 1990 This book has two principal themes First it is addressed to those who work for corporations Many Christians have been taught to feel at best faint disdain for corporations and those who manage them In contrast Novak knows that many most business men and women are ethical people who yearn for moral guidance and advice Consequently Theology tackles a basic moral question Can a Christian Work for a Corporation Novak s answer Yes Yet Novak

recognized that anyone who purported to think about practical business ethics needed to understand the predominant form of business organization the public corporation Much of Theology is thus devoted to an analysis of the corporation Is the firm's structure as a bureaucratic hierarchy consistent with church teaching on human dignity What social responsibility if any does the corporation have And so forth Thinking about those questions naturally lead Novak to broader issues such as the consistency of capitalism with church teachings on wealth In Theology therefore Novak began working out the line of argument that was later developed more fully in his magisterial The Spirit of Democratic Capitalism Novak recognizes that church teaching has been hostile to capitalism as with much else of modernity Yet Novak contends that arguments against capitalism serve mainly to give aid and comfort to the Leviathan state In the most controversial portions of Theology Novak attributes Christian opposition to capitalism to two main sources ignorance and antique world views Church leaders and theologians tend to be poorly trained in economics and inexperienced with the world of economic reality Many believers again this is especially true of theologians are likely to inherit either a pre capitalist or a frankly socialist set of ideals about political economy As a result Church leaders are more likely to err in this territory i e economic justice than in most others p 59 To be clear Novak does not believe that faith should be subordinated to capitalism To the contrary he recognizes that the divine plan was that we should enjoy the fruits of the earth and of our own industry He simply contends that capitalism is the best way Fallen humans have yet devised to obey the Biblical command that we are to be stewards of God's world Novak never loses sight of the basic proposition that it was equally the divine plan that God should be worshiped obeyed and feared The fear of the Lord he would argue is the beginning of capitalist wisdom just as it is of any other kind of wisdom Not surprisingly therefore Novak's analysis has begun to impact the way the church thinks about capitalism Pope John Paul II's most recent encyclicals on work and the economy for example such as Centesimus Annus contain obvious marks of Novak's influence

On Cultivating Liberty Michael Novak, 1999 On Cultivating Liberty brings together Novak's essays on moral ecology the ethos that must be cultivated and preserved if liberal democratic societies are to survive Novak argues in defense of a free and virtuous society by examining the family welfare reform free markets self government and the American Founding and includes a series of remarkable intellectual studies on figures ranging from Jacques Maritain to St Thomas Aquinas Along with a biographical essay and an introduction by Brian C Anderson On Cultivating Liberty is indispensable for anyone concerned about the future of democracy

Human Rights Activism and the End of the Cold War Sarah B. Snyder, 2011-06-20 Two of the most pressing questions facing international historians today are how and why the Cold War ended Human Rights Activism and the End of the Cold War explores how in the aftermath of the signing of the Helsinki Final Act in 1975 a transnational network of activists committed to human rights in the Soviet Union and Eastern Europe made the topic a central element in East West diplomacy As a result human rights eventually became an important element of Cold War diplomacy and a central component of d tente Sarah B Snyder demonstrates how this network influenced both Western

and Eastern governments to pursue policies that fostered the rise of organized dissent in Eastern Europe freedom of movement for East Germans and improved human rights practices in the Soviet Union all factors in the end of the Cold War

*The Fire of Invention, the Fuel of Interest* Michael Novak,1996 This work looks at the theological and philosophical arguments behind the law of patents and copyrights New problems such as patents for body parts in biogenetics are also discussed

**Christian Ethics and U.S. Foreign Policy** L. Larry Pullen,2000-01-01 Christian Ethics and U S Foreign Policy examines the evolution of American foreign policy toward the Soviet Union during the period 1973 1980 In particular Larry Pullen investigates how and why human rights issues became an increasingly significant part of the U S Soviet relationship focusing on the development of the Helsinki Accords and the process of monitoring compliance with its human rights provisions Pullen presents an informed critique of both realist Henry Kissinger s and idealist Jimmy Carter s human right s policies in the tradition of Christian realism associated with Reinhold Neibuhr The study is sure to provoke debate among students and scholars of foreign policy and ethics

**The Future of the Corporation** Michael Novak,1996 This book reviews the long history of the corporation and examines the central role of business and economic growth in the strengthening of civil society and democracy

**The Fire of Invention** Michael Novak,1997 A must read book for every CEO Robert C Goizueta CEO The Coca Cola Company A brilliant succinct analysis of the American corporation today Novak convincingly portrays this much reviled institution as an unparalleled creator of wealth mobilizing people and capital to perform innovative complex tasks its very independence from government making it a vital bulwark for democracy and liberty Forbes

Three in One Michael Novak,2001 Throughout his many writings Michael Novak one of the leading Catholic social theorists of our times has urged us to adopt a tripartite system of democratic capitalism including a market economy a democratic polity and a moral cultural system that would nourish the values and virtues on which free societies depend Three in One introduces the reader to Novak s portrait of democratic capitalism

*Tell Me Why* Michael and Jana Novak,1999-07 Theologian Michael Novak responds to the skeptical questions of his twentysomething daughter Jana

**On Corporate Governance** Michael Novak,1997 Two great achievements raising up the poor and animating civil society provide powerful moral claims for business corporations But this book argues that many new schemes for corporate governance jeopardize these achievements

*Federal Government's Handling of Soviet and Communist Bloc Defectors* United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations,1988

*The Soviet Union* ,1990 *The Helsinki Process and the Reintegration of Europe, 1986-1991* Vojtech Mastny,1992 Containing 122 essential documents by Mikhail Gorbachev Margaret Thatcher Eduard Shevardnadze Francois Mitterand James Baker and others this book analyzes and interprets the remarkable progress of the Helsinki process during the course of the late 1980s and early 1990s As the only international organization that brings all European states together with the US and Canada on an equal basis the Conference on Security and Cooperation in Europe CSCE is widely regarded as the most

promising foundation of Europe's new architecture Through its promotion of human rights as a factor of international security the CSCE contributed decisively to the erosion of barriers between East and West in Europe It led to both the acceptance of Western standards of human rights throughout the continent and the expansion of the idea that security can extend beyond strictly military matters The author an internationally renowned scholar of European politics traces the vital influence of the process presenting the most critical documents together with an analytical and interpretive introduction and questioning the future goals and effectiveness of the CSCE
