was set up as a civil or chancery court with informal proceedings and discretion left to the juvenile court judge Furthermore juvenile court proceedings were closed to the public and juvenile records were to remain confidential However as the decades progressed juveniles became increasingly involved in more serious crimes This generated a growing fear among lawmakers educators and the public which resulted in a number of get tough policies and strategies By the 1990s the most popular approach in dealing with violent juvenile crime was for states to make it easier or to require the prosecution of juveniles as adults in criminal court Research demonstrates that such policies may be counter productive increase rather than decrease recidivism and cause harm to offenders their families and the community This volume provides a comprehensive historical review of knowledge surrounding the transfer of American s youth from the rehabilitative individualized treatment of the juvenile justice system to the adult criminal justice system Young Offenders and Their Families - the Human Rights Issue ,1998 **The Ideologies of Children's Rights** Michael Freeman,Philip E. Against Sexual Exploitation in Taiwan Amy H.L. Shee, 2019-05-23 First published in 1998 this volume responds to child prostitution being recognised as a major social problem in modern capitalist Taiwan It is defined both legally and socially as a problem of sexual transactions involving children and juveniles thus the issue of child maltreatment is submerged under other concerns However the main concern of this book is the protection of children from maltreatment so related socio legal measures will be examined by this parameter During the social campaigns against child prostitution structural problems such as police corruption male sexual perversion socio economic inequality and the maladjustment of aboriginal people in the modern Taiwanese society are subjugated to increasing criticism Nevertheless efforts to encounter any of them have had very limited accomplishment This book intends to show that the functions of law in the prevention and treatment of the social problem of child prostitution cannot work as intended if those structural problems are not properly tackled Suggestions are also made to address the need to reconceptualise the problem in the analytical framework of child maltreatment and to recommend the direction for reformation of policy and practice
