**The Year 2100** Kyu Hwang, 2012-08

The book is a hybrid of fiction and projection comprehensively including predictions on the future world Fictional parts of the novel used to vividly portray fictitious figures carrying out national policy to impact on the world order The prevalent land grab in the Third World now will develop into putting a whole nation on sale if a fortune will be offered to the citizens of target country Thus China will use its immense foreign currency reserve to annex a small country like Solomon Islands in the beginning stage and then expand further into Eurasia Likewise other world powers will expand territories by the will of incorporated citizens In result political map of the world will differ much from current world And rivalry in Asia will ignite spread of nuclear arsenals to satisfy their national pride but deep economic integration within the continent will set aside Cold War mentality for mutual prosperity The gloomy prospect of food energy will exacerbate the anxiety of

contemporaries until awakened leading countries devoting to reverse the nightmare After the mid 21st century the haunting effects of climate change and peak oil will capitulate to the ingenuity and will of people thereby next generation will access closely to a utopian world

*Southeast Asia between China and Japan* Lam Peng Er, Victor Teo, 2011-11-15 Triangular relations which frame China and Japan as two sides of an isosceles triangle usually focus on the United States as the significant third side This edited book examines another relatively underexplored set of triangular relations those between China Japan and Southeast Asia The region comprised of eleven small and medium size states is often considered inconsequential in the tempestuous world of international politics where political clout economic prowess military strength and soft power matter most Often seen as easily dominated by extra regional great powers this volume reconsiders the region's relationship with China and Japan their two Asian neighbours to the northeast which also happen to be the world's second and third largest economies While China and Japan do compete for turf in Southeast Asia states in the region do not perceive themselves as strategic pawns of these two great Asian powers but instead as proactively engaging China and Japan in the region The country specific case studies of this book collectively support the thesis that the Southeast Asian states actively seek to manoeuvre between China and Japan for their own advantage and at the same time grapple with developments in Northeast Asia through regional integration efforts Through the establishment of benchmark norms and values Southeast Asia attempts to socialise China and Japan and other external powers to the ASEAN way Indeed Southeast Asia as a region is now the driver of East Asian multilateralism and regionalism and the East Asian reality is that Southeast Asia is a major political economic and cultural player in its own right vis vis the great powers

Shklovsky,2013-01-03 Begun in 1929 under the title New Prose and drastically revised after Vladimir Mayakovsky s sudden death A Hunt for Optimism 1931 circles obsessively around a single scene of interrogation in which a writer is subjected to a show trial for his unorthodoxy Using multiple perspectives fragments and aphorisms and bearing the vulnerability of both the Russian Jewry and the anti Bolshevik intelligentsia who had unwittingly become the enemies of the people Hunt satirizes Soviet censorship and the ineptitude of Soviet leaders with acerbic panache Despite criticism at the time that it lacked unity and was too variegated to be called a purely Shklovskian book Hunt is stylistically unpredictable experimentally bold and unapologetically ironic making it one of the finest books in Shklovsky s body of work **The Economics of East Asian**
