Clashing Views on Controversial Issues in World Civilizations, 1998

Exploring Environmental Issues David D. Kemp, 2004-07-31 Global warming ozone depletion drought acid rain their causes are viewed as extraordinarily complex their effects are assumed catastrophic Exploring Environmental Issues provides a key to understanding our potential crisis The concise introductory text presents a review of current environmental issues using a geographical approach that stresses the interrelationships between environment and societies This user friendly volume is an essential book for students and all who are concerned with the nature of contemporary environmental issues Information is presented in a refreshing manner utilising over 170 figures and

50 photographs Global boxed case studies are used throughout to highlight and explore issues in more detail The text also contains discussion points annotated further reading and an extensive glossary The New Europe Frances Scott,1991

Building Students' Historical Literacies Jeffery D. Nokes,2022-03-13 How can teachers incorporate the richness of historical resources into classrooms in ways that are true to the discipline of history and are pedagogically sound Now in its second edition this book explores the notion of historical literacy adopts a research supported stance on literacy processes and promotes the integration of content area literacy instruction into history content teaching Providing an original focus on the discipline specific literacies of historical inquiry the new edition presents a deeper examination of difficult histories and offers new strategies that can be applied to all genres of historical inquiry Nokes surveys a broad range of texts including those that historians and nonhistorians both use and produce in understanding history and provides a wide variety of practical instructional strategies immediately available to teachers Featuring new examples and practical resources the new edition highlights the connection between historical literacies and the critical reading and communication skills that are necessary for informed civic engagement Equipped with study guides graphic organizers and scoring guides for classroom use this text is an essential resource for preservice and practicing teachers in literacy and social studies education **The Human Right to Development in a Globalized World** Daniel Aguirre,2021-12-16 Offering a comprehensive analysis of the human right to development and its realistic application in an era of economic globalization Daniel Aguirre provides a multidisciplinary overview of economic globalization and examines its challenges to the realization of human development He takes this further by engaging with these challenges and highlighting the human rights opportunities presented by economic globalization and the international investment system The volume proposes a triadic system of responsibility for human rights in development to include mapping the overlapping human rights responsibilities of corporations at the micro level of states at the macro level and of the international community at the meso level The scope of the book is broad and the approach to the subject is new It will generate interest across many disciplines including political science international law and economics Activists academics and development practitioners in many fields should also read this book *Greening the College Curriculum* Jonathan Collett,Stephen Karakashian,2013-04-10 *Greening the College Curriculum* provides the tools college and university faculty need to meet personal and institutional goals for integrating environmental issues into the curriculum Leading educators from a wide range of fields including anthropology biology economics geography history literature journalism philosophy political science and religion describe their experience introducing environmental issues into their teaching The book provides a rationale for including material on the environment in the teaching of the basic concepts of each discipline guidelines for constructing a unit or a full course at the introductory level that makes use of environmental subjects sample plans for upper level courses a compendium of annotated resources both print and nonprint Contributors to the volume include David Orr David G Campbell Lisa Naughton Emily Young John Opie Holmes Rolston III Michael E Kraft

Steven Rockefeller and others American Foreign Policy and Political Ambition James Lee Ray, 2013-08-20 In his eagerly awaited second edition of *American Foreign Policy and Political Ambition* James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more
