Petroleum Age ,1921 Necessary Numbers Mary Blocksma,2002 Provides histories useful gauges and measures and help for people who don t understand numbers and how they are used in everyday life **The Primitive Origination of Mankind** Matthew Hale,1677 This text explores mankind s origins as considered and examined in light of nature with particular emphasis on the following parts and assertions I That according to the light of nature and natural reason the visible world was not eternal but had a beginning II That if there could be any imaginable doubt thereof yet by the necessary evidence of natural light it does appear that mankind had a beginning and that the successive generations of men were in

their original form III That this truth is evident by demonstrative reason and arguments IV That there are moral evidences of the truth of this assertion which are herein particularly expanded and examined V That those great philosophers that asserted this origination of mankind both ancient and modern that rendered it by hypothesis different from that of Moses were mistaken here the hypotheses of Aristotle Plato and others are examined and the absurdity and impossibility of their theories are detected VI That the current author s theory explaining the creation of man and of the world in general abstractly considered without relation to the divine inspiration of the writer is according to reason and preferable to the sentiments of other philosophers and VII That the author has concluded the whole of this work with certain corollaries and deductions necessarily flowing from the things thus asserted as well touching the existence the wisdom power and providence of Almighty God as touching both the duty and happiness of mankind Foreword PsycINFO Database Record c 2009 APA all rights reserved *A Systematic Analysis of Universal History from the Creation to the Present Time*
