Saga Tales Charles E. Miller,2010-04 The fact that Miller classifies his tales as historical requires an explanation One of them his accounts of the first murder recorded in Scripture is historically accurate in its spirit and its conscription of evil His second historical tale narrates the story of Noah and the construction of his ark precedent to the global flood That Noah by faith alone constructed his massive ark in the middle of a rainless desert marked him for strange and for the ridicule of his village The balance of the tales deal with the histories of their central characters and for that reason the author includes them in his parameter of historical This collection marks his fourth volume of short stories
