Talent Balancing Staffing Your Company For Long Term Success:

Talent Balancing Jim Stedt, 2005-12-30 When the economy was booming it was hard to find good people winning the talent war was a popular phrase and those individuals with the right stuff could command hefty salaries and perks When the economy crumbled the headhunters were sent packing Today companies are starting to hire again but instead of recruiting a group of fifty they're hiring five They're outsourcing and hiring temps They're replacing staff due to turnovers retirements and areas that were downsized rather than expanding They're relying on reduced HR departments and in-house managers and staff to make critical staffing decisions Surprisingly in this environment good people are hard to find the top performers are staying where they are and it's the weak and marginal performers that make up most of the available talent pool Talent Balancing draws from the author's 35 years in the field to present a fresh and practical approach to recruiting in today's volatile and uncertain environment In particular Talent Balancing will help entrepreneurs and managers without formal recruitment training navigate organizational politics analyze current and future staffing needs and execute a successful plan Whether you are ramping up a new team or department or filling a temporary spot Talent Balancing provides a wealth of insights and tools to ensure that your organization meets both immediate and long-term goals **Global Talent**
