Orients Ros Ballaster, 2005-10-20 Narrative moves Stories migrate from one culture to another over vast distances sometimes but their path is often difficult to trace and obscured by time Fabulous Orients looks at the traffic of narrative between Orient and Occident in the eighteenth century and challenges the assumption that has dominated since the publication of Edward Said's Orientalism 1978 that such traffic is always one way Eighteenth century readers in the West came to draw their mental maps of oriental territories and distinctions between them from their experience of reading tales from the Orient In this proto colonial period the English encounter with the East was largely mediated through the consumption of material goods such as silks indigo muslin spices or jewels imported from the East together with the more moral traffic of narratives about the East both imaginary and ethnographic Through analyses of fictional representations including travellers accounts letter narratives such as Letters Writ by a Turkish Spy and popular sequences of tales such as the Arabian Nights Entertainments of four oriental territories Persia Turkey China and India Ros Ballaster demonstrates the ways in which the East came to be understood as a source of story a territory of fable and narrative Fabulous Orients is structured according to territory rather than genre Each section opens by re narrating an oriental story in which a feminine character serves to figure western desire for the territory she represents the courtesan queen of the Ottoman seraglio Roxolana the riddling Chinese princess Turandote and the illusory sati of India Canzade The book goes on to explore the range of fabulous writings relating to each territory in order to illustrate how certain narrative tropes can come to dominate its representation the conflict between the male look and female speech staged in the seraglio in the case of Turkey and Persia the inauthenticity and or dullness associated with China and its products such as porcelain and the illusory dreams that are woven in the space of India and associated with its textile industries This is the first book length study of the oriental tale to appear for almost a century Informed by recent historiographical and literary re assessments of western constructions of the East it develops an original argument about the use of narrative as a form of sympathetic and imaginative engagement with otherness a disinvestment of the self rather than a confident expression of colonial or imperial ambition The

One Thousand and One Nights (Complete Annotated Edition) Richard Francis Burton, 2021-08-13 In tide of yore and in time long gone before there was a King of the Kings of the Banu S'n in the Islands of India and China a Lord of armies and guards and servants and dependents. So he succeeded to the empire when he ruled the land and forded it over his lieges with justice so exemplary that he was beloved by all the peoples of his capital and of his kingdom. The Book of the Thousand Nights and A Night is a collection of Middle Eastern, West Asian, and South Asian stories and folk tales compiled in Arabic during the Islamic Golden Age. It is often known in English as the Arabian Nights. The stories proceed from an original tale of ruler Shahryar and his wife Scheherazade, where some stories are framed within other stories while others begin and end of their own accord. This edition contains more than 1001 tales of romance, erotica, supernatural, and adventure, along with copious notes that transport you into the land of magic and nostalgia. **Arabian Nights, in 16 volumes**, 2008-12-01 Notorious for the delight he took in tweaking the sexual taboos of the Victorian age, as well as the delight he took in the resulting shock of his bashful peers, British adventurer, linguist, and author CAPTAIN SIR RICHARD FRANCIS BURTON (1821-1890) is perhaps best remembered for his unexpurgated translation of the Eastern classic The One Thousand and One Nights, more famously known today as The Arabian Nights. Originating in Persian, Indian, and Arabic sources as far back as the ninth century AD, this collection of bawdy tales, which Burton was the first to bring to English readers in uncensored form, has exerted incalculable influence on modern literature. It represents one of the earliest examples of a framing story, as young Shahrazad, under threat of execution by the King, postpones her death by regaling him with these wildly entertaining stories over the course of 1,001 nights. The stories themselves feature early

instances of sexual humor satire and parody murder mystery horror and even science fiction Burton s annotated 16 volume collection as infamous as it is important was first published between 1885 and 1888 and remains an entertainingly naughty read Volume X which concludes Burton s initial publication of the tales includes Ma aruf the Cobbler and His Wife Fatimah Burton s essays on the origins of the tales and other background material appendices and indexes and more Oriental Tales: Zein ul Asnam and the king of the Jinn; Alaeddin and the enchanted lamp, both done into English by John Payne ,1901
