*In the Ruins of Empire* Ronald Spector, 2008-07-08 The New York Times said of Ronald H Spector's classic account of the American struggle against the Japanese in World War II No future book on the Pacific War will be written without paying due tribute to *Eagle Against the Sun* Now Spector has returned with a book that is even more revealing *In the Ruins of Empire* chronicles the startling aftermath of this crucial twentieth century conflict With access to recently available firsthand accounts by Chinese Japanese British and American witnesses and previously top secret US intelligence records Spector tells for the first time the fascinating story of the deadly confrontations that broke out or merely continued in Asia after peace was proclaimed at the end of World War II Under occupation by the victorious Allies this part of the world was plunged into new power struggles or back into old feuds that in some ways were worse than the war itself *In the Ruins of Empire* also shows how the US and Soviet governments as they secretly vied for influence in liberated lands were soon at odds At the time of the peace declaration international suspicions were still strong Joseph Stalin warned that crazy cutthroats might disrupt the surrender ceremony in Tokyo Bay Die-hard Japanese officers plotted to seize the emperor's palace to prevent an announcement of surrender and clandestine relief forces were sent to rescue thousands of Allied POWs to prevent their being massacred *In the Ruins of Empire* paints a vivid picture of the postwar intrigues and violence In Manchuria Russian liberators looted raped and killed innocent civilians and a fratricidal rivalry continued between Chiang Kai-shek's regime and Mao's revolutionaries Communist resistance forces in Malaya settled old scores and terrorized the indigenous population while mujahideen holy warriors staged reprisals and terror killings against the Chinese hundreds of innocent civilians were killed on both sides In Indochina a nativist political movement rose up to oppose the resumption of

French colonial rule one of the factions that struggled for supremacy was the Communist Viet Minh led by Ho Chi Minh Korea became a powder keg with the Russians and Americans entangled in its north and south And in Java as the Indonesian novelist Idrus wrote people brutalized by years of Japanese occupation worshipped a new God in the form of bombs submachine guns and mortars Through impeccable research and provocative analysis as well as compelling accounts of American British Indian and Australian soldiers charged with overseeing the surrender and repatriation of millions of Japanese in the heart of dangerous territory Spector casts new and startling light on this pivotal time and sets the record straight about this contested and important period in history

The Marine Biology of the South China Sea III Brian Morton, 1998-07-01 The first conference on the Marine Biology of the South China Sea was convened in Hong Kong in 1990 to celebrate the opening of the Swire Institute of Marine Science The second was convened in Guangzhou China in 1993 The third conference returned to Hong Kong in 1996 and in a continuing pattern of growth was attended by 127 scientists and students from 14 countries and territories Of the 104 keynote addresses papers and posters presented at the meeting 42 are published here following critical peer review under the symposium categories of Taxonomy and Biological Diversity Biology and Ecology and Coastal Zone Management and Conservation of the Biological Resources of the South China Sea Each conference sets its own symposia themes but in view of the rapid perceived decline in the marine environment of the South China Sea and the overexploitation of its resources the 1996 meeting focused its attention on these issues There are many meetings related to marine science convened by the countries of the South China rim Some are national others are international but most are typically convened by agencies and attendance is restricted to an invited few usually senior scientists Europe hosts a European Marine Biology Symposium that is convened in a different country each year and which sets the meeting's themes The proceedings of those meetings constitute one of the most authoritative accounts of the marine biology of European waters The meeting itself provides a forum for scientists and students so that international collaborative research is now a key feature of European marine science First convened in 1996 the 32 symposia are a tribute to international co operation in research in a marine environment that of itself knows no boundaries The South China Sea countries also need such a forum free of political dogma This conference proceedings is the third to help promote such an event hopefully one day at a greater frequency than three years The fourth conference is to be convened in the Philippines in 1999 This volume then is an international perspective on the South China Sea by scientists who research it and are concerned for its future It contains information that should appeal to marine biologists throughout the world and in particular to those in Asia
