Tales Of The Earth:

Earth Tales from around the World Michael J. Caduto, 2016-11-29 Stories come from around the world but they grow from the very earth upon which they are first told Michael J Caduto invites readers to listen while the Earth tells these stories through his lyrical retellings of tales such as Hare Rescues the Sun and The Coming of Fire *The Hollow Earth Chronicles* Bryan Whelan, 2016-10-10 A chance discovery of a large crevasse at the North Pole in the 1800s took our intrepid explorers into another world beneath the surface of the earth It became one of the first encounters with people living in a place now called Hollow Earth A hundred years later another visitor had a less than friendly encounter The three races of Hollow Earth had lived in peace for many centuries after a great war But their world became threatened by a series of underground nuclear explosions that came from the surface The people on the surface were totally ignorant of their existence and continued their explosions Despite the Hollow Earth people being very cautious about retaliation their patience had finally run out by the 2020s The latest visitor became a pawn in a potential war that threatened every living thing on the surface The Hollow Earths advanced technology meant that the surface dwellers were going to be in the fight of their lives and they had no idea why *Earth Plan* David Sloma, 2016-09-05 The caveman abducted from Earth doesn't understand the ark like spaceship holding him captive The vast ship with its own ecosystem and self aware A I is from the Watchers energetic beings who are the guardians of life It has been sent on an intergalactic rescue mission to preserve life forms and their DNA from disasters both natural and created The ship detected an energy shield being constructed around the young Earth by an unknown force Unsure it will be able to leave Earth after its sampling mission the ship continues Its mission is too important not to try even if it means being trapped inside the barrier never to return to the planet of the Watchers with its precious cargo of life But the ship and Earth's life forms are not alone The servants of the Dark One a powerful evil entity have arrived to begin their corruption of the pure beings they find These ancient forces of good and evil fight a galaxy spanning war through time and space on many fronts through many civilizations The Watchers must defeat the Dark One or all life in the universe will perish EARTH PLAN is a science fiction fantasy novel of over 100 000 words *The House Between Earth and Sky* Joseph Daniel Sobol, 2005-01-30 Travel with storyteller and folklorist Joseph Daniel Sobol as he embarks on a journey of multicultural awareness and awakening This book of multicultural and multilingual proverbs beliefs remedies recipes and folktales collected by ESL students during a series of folklore and storytelling residencies at Chicago inner city secondary schools In this captivating teacher resource Sobol chronicles his experiences in four Chicago schools as a visiting teacher and collector of multicultural folktales With this resource you can expose your students to fables wonder tales and other ancient story genres along with proverbs remedies recipes and folktales from all over the world Learn how to conduct your own classroom folktale residency by teaching the art of interviewing gathering story elements recording them in the original languages and translating them into English This sophisticated collection not only consists of marvelous accounts from far
