Contemporary Migration Lena Englund, 2024-08-24. This book examines contemporary stories of migration belonging to multiple literary genres such as nonfiction, memoir, novel, and essay, and explores the futures they envision for migrants and their surrounding societies. The primary material ranges from personal experiences of migration for professional purposes and of being undocumented without access to citizenship to novels that provide fictional representations of migrants and their complex lives. This study asks how migration as portrayed in contemporary writing addresses personal, social, and political consequences of being on the move. The book is organized around central themes such as the status of being undocumented or aspirations and expectations of both migrants themselves as well as their new environs. The material examined has been published from 2016 onwards, addressing the aftermath of the migrant crisis 2015-2016 as well as the Trump administration 2017-2021.

Recreation, 1916 **Playground and Recreation**, 1916 *The Playground*, 1916 Words Made Flesh R. A. R. Edwards, 2014 During the early nineteenth century schools for the deaf appeared in the United States for the first time These schools were committed to the use of the sign language to educate deaf students Manual education made the growth of the deaf community possible for it gathered deaf people together in sizable numbers for the first time in American history It also fueled the emergence of Deaf culture as the schools became agents of cultural transformations Just as the Deaf community began to be recognized as a minority culture in the 1850s a powerful movement arose to undo it namely oral education Advocates of oral education deeply influenced by the writings of public school pioneer Horace Mann argued that deaf students should stop signing and should start speaking in the hope that the Deaf community would be abandoned and its language and culture would vanish In this revisionist history Words Made Flesh explores the educational battles of the nineteenth century from both hearing and deaf points of view It places the growth of the Deaf community at the heart of the story of deaf education and explains how the unexpected emergence of Deafness provoked the pedagogical battles that dominated the field of deaf education in the nineteenth century and still reverberate today
