John Siko, 2014-06-16 South Africa is a major player in African diplomacy Its economic diplomatic and military resources far outstrip those of other nations on the continent and it has since the country's 1994 democratic transition sought to take a lead role in the continent's relations with other power blocs particularly during the 1999-2008 presidency of Thabo Mbeki While Mbeki's push for greater African engagement in the global political sphere drew widespread praise other positions notably its seeming inaction toward Zimbabwe and perceived abandonment of its stated emphasis on human rights in foreign policy were more controversial both at home and abroad John Siko has had insider access to South Africa's leading foreign policy players and has been able to ask why Pretoria has taken its various stances and who has mattered in influencing those decisions a topic little examined since 1994 In addition he examines the foreign policy process over the past century determining that despite ANC promises of greater democratic engagement on foreign policy the process has changed quite little *South Africa's Suspended Revolution* Adam Habib, 2013-09-18 South Africa's Suspended Revolution tells the story of South Africa's democratic transition and the prospects for the country to develop a truly inclusive political system Beginning with an account of the transition in the leadership of the African National Congress from Thabo Mbeki to Jacob Zuma the book then broadens its lens to examine the relationship of South Africa's political elite to its citizens It also examines the evolution of economic and social policies through the democratic transition as well as the development of a postapartheid business community and a foreign policy designed to re-engage South Africa with the world community

Written by one of South Africa's leading scholars and political commentators the book combines historical and contemporary analysis with strategies for an alternative political agenda Adam Habib connects the lessons of the South African experience with theories of democratic transition social change and conflict resolution Political leaders scholars students and activists will all find material here to deepen their understanding of the challenges and opportunities of contemporary South Africa

Africa was being spoken of in the media as the lost or hopeless continent Now it has some of the fastest growing economies in the world largely because of the impact of the BRICS Brazil Russia India China and South Africa In this first book to be written about the BRICS as a collective phenomenon P draig Carmody reveals how their engagements with Africa both

individually and collectively are often contradictory generating new inequalities and potential for development Crucially Carmody shows how the geopolitics of the BRICS countries involvement in Africa is impacted by and impacts upon their international relations more generally and how the emergence of these economies has begun to alter the very nature of globalization which is no longer purely a Western led project This is a path breaking examination of Africa s changing role in the world

A Brief History of Neoliberalism David Harvey,2007-01-04 Neoliberalism the doctrine that market exchange is an ethic in itself capable of acting as a guide for all human action has become dominant in both thought and practice throughout much of the world since 1970 or so Its spread has depended upon a reconstitution of state powers such that privatization finance and market processes are emphasized State interventions in the economy are minimized while the obligations of the state to provide for the welfare of its citizens are diminished David Harvey author of *The New Imperialism* and *The Condition of Postmodernity* here tells the political economic story of where neoliberalization came from and how it proliferated on the world stage While Thatcher and Reagan are often cited as primary authors of this neoliberal turn Harvey shows how a complex of forces from Chile to China and from New York City to Mexico City have also played their part In addition he explores the continuities and contrasts between neoliberalism of the Clinton sort and the recent turn towards neoconservative imperialism of George W Bush Finally through critical engagement with this history Harvey constructs a framework not only for analyzing the political and economic dangers that now surround us but also for assessing the prospects for the more socially just alternatives being advocated by many oppositional movements

Civilizational Dialogue and World Order M. Michael,2009-05-25 The book comes at a very critical moment in the debate on civilization and responds to the lack of scholarly attention by international relations and political theorists as to how the discourse of dialogue of cultures religions and civilizations can contribute to the future of

world order **Transnational Corporations from the Standpoint of Workers** N. Räthzel, D. Mulinari, A.

Tollefsen, 2014-07-29 This book explores the history and global expansion of AB Volvo one of the hundred largest corporations in the world through the experiences of its workers in Sweden Mexico South Africa and India It investigates how neo liberalisation has transformed the company into a promoter of lean production at the expense of the workers needs

Thabo Mbeki Adekeye Adebajo, 2017-05-15 Former South African president Thabo Mbeki is a complex figure He was a committed young Marxist who while in power embraced conservative economic policies and protected white corporate interests a rational and dispassionate thinker who was particularly sensitive to criticism and dissent and a champion of African self reliance who relied excessively on foreign capital As a key liberation leader in exile he was instrumental in the ANC's anti-apartheid struggle Later he helped build one of the world's most respected constitutional democracies As president though he was unable to overcome inherited socioeconomic challenges and his disastrous AIDS policies will remain a major blotch on his legacy Mbeki is the most important African political figure of his generation He will be remembered as a foreign policy president for his peacemaking efforts and his role in building continental institutions not least of which was the African Union In this concise biography ideally suited for the classroom Adekeye Adebajo seeks to illuminate Mbeki's contradictions and situate him in a pan African pantheon

Public Problems - Private Solutions? Simon Raiser, 2017-11-30 Cities and city regions are undergoing rapid transformation They are prime locations of innovation while at the same time facing growing problems of spatial fragmentation and social exclusion By addressing these problems cities become forerunners for new patterns of governance which include increasingly private actors While research on global cities has focused primarily on the world's leading financial and economic centres comparative research on the changing role of large complex cities in the developing world is less advanced But it is here where public problems are most seriously threatening the cohesion of urban society and where the need for new answers is most urgent Illustrated by in depth examinations of four city regions Shanghai Mumbai Johannesburg and S o Paulo this book readdresses this balance The book revisits the same set of cities from different angles thereby reflecting urban contradictions juxtapositions and disjunctures

Contemporary India and South Africa Sujata Patel, Tina Uys, 2013-11-12 This book deals with the legacies of the Indian experiences of migration and diaspora in South Africa It highlights the social imaginaries of the migrants and citizens as they negotiate between a reconstructed notion of India and their real present and future in the country of citizenship Both South Africa and India have had a long history of group based identity movements against exploitation around caste and race intersecting with class gender language religion and region The combined history has allowed them to participate in novel ways in the global arena as regional powers The book suggests that the question of identity concerns itself with exploitation and oppression of excluded groups in both countries The authors are particularly attentive to the manner in which the two democratic states have confronted the challenges of history together with contemporary demands of inclusion and discuss the dilemmas

involved in resolving them The volume also raises questions regarding future roles especially in the fields of education and the environment It will be of interest to those in the fields of sociology political science international relations history migration and diaspora studies as well as to the general reader
