A General Drama of Pain Bernard J. Paris,2017-07-28 This motivational analysis of the protagonists in Thomas Hardy's three most widely read novels *Tess of the d'Urbervilles* *The Mayor of Casterbridge* and *Jude the Obscure* highlights an often overlooked aspect of his art Bernard J Paris shows Hardy's genius in creating imagined human beings He demonstrates that while Hardy tends to blame external conditions for his characters' painful fates their downfalls are due to a very complex combination of cosmic social and psychological factors Hardy's characters are usually discussed primarily in thematic terms The characters are so richly portrayed Paris argues that they can be better understood independent of Hardy's interpretations in motivational terms and he utilizes the psychologist Karen Horney's theories to recover Hardy's intuitions The characters are full of inner conflicts that make them difficult to fathom but the approach Paris employs explains their contradictions and illuminates their troubled relationships shedding light on these expertly crafted imagined human beings This psychological approach to Hardy's characters enables us to understand his characters and gain insight into the implied authors of the works In addition the approach shows Hardy's authorial personality We can see that Hardy treats some defensive strategies more sympathetically than others Given his view of life as a general drama of pain resignation like that of Hardy's character Elizabeth Jane is the strategy he prefers
