The Flow Of Art Essays And Criticisms Henry McBride Series In Modernism And Modernity:

The Flow of Art Henry McBride, 1997-01-01 This volume presents a collection of writing by the foremost art critic of the modern movement as it emerged in the United States after the 1913 Armory Show McBride wrote for The New York Sun and the literary journal The Dial *The Virginia Quarterly Review*, 1998 *Walter Pach (1883-1958)* Laurette E.

McCarthy, Walter Pach, 2011 Explores the career of Walter Pach 1883 1958 an influential figure in twentieth century art and culture As critic agent liaison and lecturer Pach helped win the acceptance of modern European American and Mexican art throughout the North American continent Provided by publisher **The Federal Art Project and the Creation of Middlebrow Culture** Victoria Grieve, 2009 Art for everyone the Federal Art Project's drive for middlebrow visual culture and identity **Archaism, Modernism, and the Art of Paul Manship** Susan Rather, 2014-11-06 Archaism an international artistic phenomenon from early in the twentieth century through the 1930s receives its first sustained analysis in this book The distinctive formal and technical conventions of archaic art especially Greek art particularly affected sculptors some frankly modernist others staunchly conservative and a few who like American Paul Manship negotiated the distance between tradition and modernity Susan Rather considers the theory practice and criticism of early twentieth century sculpture in order to reveal the changing meaning and significance of the archaic in the modern world To this end and against the background of Manship's career she explores such topics as the archaeological resources for archaism the classification of the non Western art of India as archaic the interest of sculptors in modern dance Isadora Duncan and Ruth St Denis and the changing critical perception of archaism Rather rejects the prevailing conception of archaism as a sterile and superficial academic style to argue its initial importance as a modernist mode of expression The early practitioners of archaism including Aristide Maillol Andr Derain and Constantin Brancusi renounced the rhetorical excess overrefined naturalism and indirect techniques of late nineteenth century sculpture in favor of nonnarrative stylized and directly carved works for which archaic Greek art offered an important example Their position found implicit support in the contemporaneous theoretical writings of Emmanuel Levy Wilhelm Worringer and Adolf von Hildebrand The perceived relationship between archaic art and tradition ultimately compromised the modernist authority of archaism and made possible its absorption by academic and reactionary forces during the 1910s By the 1920s Paul Manship was identified with archaism which had become an important element in the aesthetic of public sculpture of both democratic and totalitarian societies Sculptors often employed archaizing stylizations as ends in themselves and with the intent of evoking the foundations of a classical art diminished in potency by its ubiquity and obsolescence Such stylistic archaism was not an empty formal exercise but an urgent affirmation of traditional values under siege Concurrently archaism entered the mainstream of fashionable modernity as an ingredient in the popular and commercial style known as Art Deco Both developments fueled the condemnation of archaism and of Manship its most visible exemplar by the avant garde Rather's exploration of the critical debate over archaism finally

illuminates the uncertain relationship to modernism on the part of many critics and highlights the problematic positions of sculpture in the modernist discourse
