## **The Foreign Policy Of Selfinterest A Moral Ideal For America:**

**The Foreign Policy of Self-interest** Peter Schwartz, 2004 Why is America Pursuing a Foreign Policy of Speak Softly and Carry a Big Carrot America's foreign policy Mr Schwartz argues is driven by the view that the pursuit of self interest is morally tainted that is that if we wish to do what is right we must sacrifice our interests for the sake of other nations This is why we are so appeasingly apologetic when it comes to asserting our right to live free from the threat of force It is why we are so hesitant in implementing our moral obligation to eliminate all such threats by military means It is why we are failing in our war against terrorism In this uncompromising manifesto the author calls for a radically different foreign policy one based entirely on self interest Repudiating any dichotomy between the moral and the practical he advocates a policy under which a nation's interests are measured by only one standard the individual liberty of its citizens The architects of such a foreign policy would reject any duty to sacrifice the wealth and the lives of Americans to the needs of other countries They would disclaim any obligation to seek international approval before deciding to use force to safeguard America Instead they would intransigently uphold our self interest not as a matter of amoral expediency as advocated by the impractical pragmatists and their school of realpolitik but rather as a moral principle a principle that is in keeping with America's founding values

**Winning the Unwinnable War** Elan Journo, 2009-09-29 Eight years after 9 11 and in the shadow of two protracted U S military campaigns in the Middle East the enemy is not only undefeated but emboldened and resurgent What went wrong and what should we do going forward Winning the Unwinnable War shows how our own policy ideas led to 9 11 and then crippled our response in the Middle East and it makes the case for an unsettling conclusion By subordinating military victory to perverse allegedly moral constraints Washington's policy has undermined our national security Owing to the significant influence of Just War Theory and neoconservatism the Bush administration consciously put the imperative of shielding civilians and bringing them elections above the goal of eliminating real threats to our security Consequently this policy left our enemies stronger and America weaker than before The dominant alternative to Bushesque idealism in foreign policy so called realism has made a strong comeback under the tenure of Barack Obama But this nonjudgmental supposedly practical approach is precisely what helped unleash the enemy prior to 9 11 The message of the essays in this thematic collection is that only by radically re thinking our foreign policy in the Middle East can we achieve victory over the enemy that attacked us on 9 11 We need a new moral foundation for our Mideast policy That new starting point for U S policy is the moral ideal championed by the philosopher Ayn Rand rational self interest Implementing this approach entails objectively defining our national interest as protecting the lives and freedoms of Americans and then taking principled action to safeguard them The book lays out the necessary steps for achieving victory and for securing America's long range interests in the volatile Middle East

NeoConservatism C. Bradley Thompson, 2015-11-17 An obituary so soon Surely the reports of neoconservatism's death are greatly exaggerated C Bradley Thompson has written with Yaron Brook the most comprehensive and original

analysis of neoconservatism yet published and in the process has dealt it a mortal blow **Neoconservatism An Obituary for an Idea** reveals publicly for the first time what the neocons call their philosophy of governance their plan for governing America This book explicates the deepest philosophic principles of neoconservatism traces the intellectual relationship between the political philosopher Leo Strauss and contemporary neoconservative political actors and provides a trenchant critique of neoconservatism from the perspective of America s founding principles The theme of this timely book neoconservatism as a species of anti Americanism will shake up the intellectual salons of both the Left and Right What makes this book so compelling is that Thompson actually lived for many years in the Straussian neoconservative intellectual world Neoconservatism therefore fits into the breaking ranks tradition of scholarly criticism and breaks the mold when it comes to informed incisive nonpartisan critique of neoconservative thought and action **Ideals, Interests, and U.S. Foreign**

**Policy from George H. W. Bush to Donald Trump** Ronald E. Powaski, 2018-09-10 This volume discusses the presidential foreign policies of the post Cold War era beginning with George H W Bush and ending with the first 17 months of Donald Trump s presidency During this period the United States emerged from the Cold War as the world s most powerful nation Nevertheless the presidents of this era faced a host of problems that tested their ability to successfully blend realism and idealism Some were more successful than others **Ayn Rand** Chris Matthew Sciabarra, 2013-10-15 Author of *The Fountainhead* and *Atlas Shrugged* Ayn Rand 1905 1982 is one of the most widely read philosophers of the twentieth century Yet despite the sale of over thirty million copies of her works there have been few serious scholarly examinations of her thought Ayn Rand *The Russian Radical* provides a comprehensive analysis of the intellectual roots and philosophy of this controversial thinker It has been nearly twenty years since the original publication of Chris Sciabarra s *Ayn Rand The Russian Radical* Those years have witnessed an explosive increase in Rand sightings across the social landscape in books on philosophy politics and culture in film and literature and in contemporary American politics from the rise of the Tea Party to recent presidential campaigns During this time Sciabarra continued to work toward the reclamation of the dialectical method in the service of a radical libertarian politics culminating in his book *Total Freedom Toward a Dialectical Libertarianism* Penn State 2000 In this new edition of *Ayn Rand* Chris Sciabarra adds two chapters that present in depth analysis of the most complete transcripts to date documenting Rand s education at Petrograd State University A new preface places the book in the context of Sciabarra s own research and the recent expansion of interest in Rand s philosophy Finally this edition includes a postscript that answers a recent critic of Sciabarra s historical work on Rand Shoshana Milgram Rand s biographer has tried to cast doubt on Rand s own recollections of having studied with the famous Russian philosopher N O Lossky Sciabarra shows that Milgram s analysis fails to cast doubt on Rand s recollections or on Sciabarra s historical thesis

**Parameters**, 2004 **US Foreign Policy in Context** Adam Quinn, 2009-12-04 This work blends strategic analysis of contemporary US foreign policy with long term historical discussion producing an important argument relevant to the

debates surrounding both the merits of contemporary US foreign policy and the long term trends at work in American political culture Rather than a detailed historical study of the Bush administration itself the book seeks to locate Bush within the historical context of the US foreign policy tradition It makes the case for nationally specific ideological factors as a driver of foreign policy and for importance of interaction between the domestic and the international in the emergence of national strategy The contemporary element focuses on critiquing the George W Bush administration s National Security Strategy perceived by many as a radical and unwelcome ideological departure from past policy and its broader foreign policy concentrating especially on its embrace of liberal universalism and rejection of realism This critique is supported by the cumulative argument based upon the historical cases seeking to explain American leaders persistent resistance to the prescriptions of realism Quinn argues for some causal connection between historically evolved ideological constructions and the character of the nation s more recent international strategy Providing a valuable addition to the field this book will be of great interest to scholars in American politics US foreign policy and US history

United States - Africa Security Relations  
 Kelechi A. Kalu, George Klay Kieh, 2013-11-07 United States Africa relations have experienced four major cycles The first cycle was during the Cold War 1960-1990 During this period the U S developed a one sided relationship with various African states in which the latter served as foot soldiers for the U S in its competition with the Soviet Union for global domination Among other things the various client African states provided the U S with access to airfields deep water ports and sites for the establishment of various intelligence gathering facilities In addition the U S used various groups like UNITA led by Jonas Savimbi in Angola to undermine and fight pro Soviet regimes on the continent The second cycle of the relationship covered the period 1991-1998 During this time the U S scaled down its security activities in Africa The major reason was that with the end of the Cold War Africa with few exceptions like Egypt was no longer a major front for the promotion of U S Security interests The third cycle commenced in 1998 and ended in 2001 This period was characterized by the U S search for an approach to frame its security relations with Africa In this vein the U S undertook various military security initiatives The fourth cycle began after the 9/11 terrorist attacks against the American homeland Since then the U S has expanded the scope of its security relations with Africa as reflected in the establishment of various initiatives and programs At the core is the prosecution of the American war on terror Against this backdrop this book examines some of the major dimensions of the U S security relations with Africa including American security interests on the continent the war on terror AFRICOM and military cooperation Using the book s integrative theoretical framework each of the chapters in the volume examines the various factors that shape the issue of focus

**Objectively Speaking** Marlene Podritske, Peter Schwartz, 2009-01-01 Objectively Speaking Ayn Rand Interviewed provides sharp insights on a vast range of cultural issues that are totally unique and original yet instantly recognizable as Ayn Rand The collection is philosophical and intellectual yet accessible to the general public

**Alexis de Tocqueville and the Art of Democratic Statesmanship** Brian Danoff, Louie Joseph Hebert, 2011-01-01 In

1835 Alexis de Tocqueville famously called for a new political science that could address the problems and possibilities of a world itself quite new For Tocqueville the democratic world needed not just a new political science but also new arts of statesmanship and leadership In this volume Brian Danoff and L Joseph Hebert Jr have brought together a diverse set of essays revealing that Tocqueville s understanding of democratic statesmanship remains highly relevant today The first chapter of the book is a new translation of Tocqueville s 1852 address to the Academy of Moral and Political Sciences in which Tocqueville offers a profound exploration of the relationship between theory and practice and between statesmanship and political philosophy Subsequent chapters explore the relationship between Tocqueville s ideas on statesmanship on the one hand and the ideas of Plato Aristotle Machiavelli Montesquieu the Puritans the Framers of the U S Constitution Oakeshott Willa Cather and the Second Vatican Council on the other Timely and provocative these essays show the relevance of Tocqueville s theory of statesmanship for thinking about such contemporary issues as the effects of NGOs on civic life the powers of the American presidency the place of the jury in a democratic polity the role of religion in public life the future of democracy in Europe and the proper balance between liberalism and realism in foreign policy

This is likewise one of the factors by obtaining the soft documents of this **The Foreign Policy Of Selfinterest A Moral Ideal For America** by online.
