The French Communist Party Versus The Students Revolutionary Politics In May June 1968:

The French Communist Party Versus the Students Richard Johnson,1972 **Intellectuals and Politics in Post-War France** D. Drake,2001-11-11 What did French intellectuals have to say about Gaullism the Cold War colonialism the women s movement and the events of May 68 David Drake examines the political commitment of intellectuals in France from Sartre and Camus to Bernard Henri L vy and Bourdieu In this accessible study he explores why there was a radical reassessment of the intellectual s role in the mid 1970s 80s and how a new generation engaged with Islam racism the Balkan Wars and the strikes of 1995 **The Communist Parties of Italy, France and Spain** Peter Lange,Maurizio Vannicelli,2021-06-29 First published in 1981 The Communist Parties of Italy France and Spain presents a comparative and integrative overview of the development of three Communist parties in the postwar Europe Through the systematic presentation of the most important documents of the Communist parties the book provides an access to the basic declarations and positions to illustrate the strategic and ideological evolution of these three parties in the advanced industrial democracies Eurocommunism the editors argue cannot be usefully understood as a phenomenon which suddenly appeared and equally as rapidly disappeared in the 1970s Rather it is a process of adaptation and change which characterizes the development of all three parties since World War II The explicitly comparative organisation of the documents into five basic themes general strategy alliances party organization international policy policy toward the communist movement allows the reader both to follow any single party in a specific policy area or to compare the parties in response to major domestic or international events of significance Rich in archival material this book will be an invaluable resource to scholars and researchers of European Politics comparative politics comparative communism and modern European history **Memories of May '68** Chris Reynolds,2011-09-15 This book charts and analyses the emergence of the conventional representation of the French events of 1968 and argues that the dominance of this narrative despite its limitations stems from the convenience that such a consensus provides for those that have been pivotal in shaping the collective memory of this critical moment in recent history **The Political Philosophy of Poststructuralist Anarchism** Todd May,1994-07-29 The political writings of the French poststructuralists have eluded articulation in the broader framework of general political philosophy primarily because of the pervasive tendency to define politics along a single parameter the balance between state power and individual rights in liberalism and the focus on economic justice as a goal in Marxism What poststructuralists like Michel Foucault Gilles Deleuze and Jean Fran ois Lyotard offer instead is a political philosophy that can be called tactical it emphasizes that power emerges from many different sources and operates along many different registers This approach has roots in traditional anarchist thought which sees the social and political field as a network of intertwined practices with overlapping political effects The poststructuralist approach however eschews two questionable assumptions of anarchism that human beings have an essentially benign essence and that power is always repressive never

productive After positioning poststructuralist political thought against the background of Marxism and the traditional anarchism of Bakunin Kropotkin and Proudhon Todd May shows what a tactical political philosophy like anarchism looks like shorn of its humanist commitments namely a poststructuralist anarchism The book concludes with a defense contra Habermas and Critical Theory of poststructuralist political thought as having a metaethical structure allowing for positive ethical commitments The French Communist Party in Transition Annette E. Stiefbold,1977 **Political Violence, Crises and Revolutions (Routledge Revivals)** Ekkart Zimmermann,2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups D tat Revolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items **The Disobedient Generation** Alan Sica,Stephen P. Turner,2005-12-15 The Disobedient Generation collects newly written autobiographies by an international cross section of well known sociologists all of them children of the 60s It illuminates the human experience of living through that decade as apprentice scholars and activists encountering the issues of class race the Establishment the decline of traditional religion feminism war and the sexual revolution In each case the interlinked crises of young adulthood rapid change and nascent professional careers shaped this generation s private and public selves Revolutionary Subjectivity in Post-Marxist Thought Oliver Harrison,2016-04-08 Since the onset of the Global Financial Crisis the ideas of Karl Marx have once again become prominent in social and political thought This book turns to Marx s theory of revolutionary subjectivity as a means of assessing the work of three contemporary global theorists Ernesto Laclau Antonio Negri and Alain Badiou considered here together for the first time **France, 1934-1970** Richard Vinen,1996-04-12 This book describes the history of France between the anti parliamentary riots of 1934 and the death of de Gaulle in 1970 It is written as a series of interpretative essays rather than a straight chronological account Special emphasis is laid on the broad social conflicts between classes sexes and generations that underlay the complicated party politics of France Attention is also given to the episodes the rule of the Vichy government the Algerian war the thirty glorious years of economic growth and the student riots of 1968 that helped to transform the nation of Clochemerle into that of Concorde
