Russell,2012-11-01 For most Australian Aboriginal people the impact of colonialism was blunt dispossession dislocation disease murder and missionization Yet there is another story of Australian history that has remained untold a story of enterprise and entrepreneurship of Aboriginal people seizing the opportunity to profit from life at sea as whalers and sealers In some cases participation was voluntary in others it was more invidious and involved kidnapping and trade in women In many cases the individuals maintained and exercised a degree of personal autonomy and agency within their new circumstances This book explores some of their lives and adventures by analyzing archival records of maritime industry captains logs ships records and the journals of the sailors themselves among other artifacts Much of what is known about this period comes from the writings of Herman Melville and in this book Melville s whaling novels act as a prism through which relations aboard ships are understood Drawing on both history and literature *Roving Mariners* provides a comprehensive history of Australian Aboriginal whaling and sealing *The Victorian Naturalist* ,1926 **Sailing Directions (enroute)** ,1994 Sailing Directions for the Southeast Coast of Australia United States.
