The Future Is Now Anthroposophy At The New Millennium:

The Future is Now Sevak Gulbekian, 1999 Rudolf Steiner spoke at various times of a period that encompasses the end of the twentieth century and the beginning of the new millennium He described it as a time of great spiritual struggle in which forces of destruction would wage war on benevolent forces and how the future of culture and civilization would depend on the outcome In his many statements on this matter Steiner warned in particular members of the Anthroposophical Society and movement that they would be called on to develop vital spiritual capacities that are becoming increasingly critical for human progress In these eighteen essays contributors offer their thoughts on the question of where anthroposophy in its earthly manifestation now stands and to what extent it is fulfilling its tasks This commentary on the challenges ahead offers us all a chance to reassess prepare and wake up This compilation features eighteen essays by Jesaiah ben Aharon Mario Betti Terry Boardman Peter Bridgmont Gilbert Childs Dor Deverell Michaela Gl ckler Sevak Gulbekian Brien Masters Thomas Meyer Bernard Nesfield Cookson Sergei O Prokofieff Richard Seddon Nick Thomas Peter Tradowsky Hans peter van Manen Edward Warren and Olive Whicher Steiner Education and Social Issues Brien Masters, 2007 Is the philosophy we use to educate our children responsible at least partially for the attitudes and general tone of our societies A recent UNICEF report on wealthy countries saw the United States and the United Kingdom ranked lowest in the quality of life for young people across a wide range of categories including poverty health drugs friendships and happiness According to experts those nations that performed best in the survey have created child friendly societies in which for example young people are not pressured to achieve academically until their teens In contrast educators in the US and UK generally press toward economic success using education as a means of generating through No Child Left Behind and increasing use of tests the high achievers needed it is thought to produce material wealth Brien Masters an educator for more than fifty years asserts that education has a central role to play in bringing into human lives those qualities that can take us forward to a progressive future He proposes that Rudolf Steiner s educational approach which is practiced primarily in the Waldorf schools around the world is well equipped to enable this In Steiner Education and Social Issues via a series of short engaging chapters and based on his broad personal experience of teaching and teacher training Masters tackles a wide range of modern social issues from drugs and nutrition to boredom to the influence of television and multicultural societies This is a wise and informative guide for parents teachers and anyone interested in the future development of our children and our culture Steiner Education ,2000 Between Occultism and Nazism Peter Staudenmaier, 2014-04-03 The relationship between Nazism and occultism has been an object of fascination and speculation for decades Peter Staudenmaier s Between Occultism and Nazism provides a detailed historical examination centered on the anthroposophist movement founded by Rudolf Steiner Its surprising findings reveal a remarkable level of Nazi support for Waldorf schools biodynamic farming and other anthroposophist initiatives even as Nazi officials attempted to suppress occult tendencies The book also includes an

be reenlivened today through conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the Conference and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity s evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of May Human Beings Hear It are complete in themselves and can therefore be studied independently of each other
