The Future of Inflight Entertainment in Europe, According to

Passenger Expectations: Why Airlines Should Embrace Consumer Technology Jasmin Schawalder,2014-04-15

Consumerization passengers toting their tablets laptops smartphones and e readers on planes has forced airlines to re think Should they continue to invest heavily into Inflight Entertainment IFE systems or just concentrate on offering Wi Fi and power in the cabin The goal of this research was to define the IFE offer of the future Four barriers that split the world into the three regions Europe Asia and USA in terms of IFE development were identified the cultural the commercial the technological and the legal barrier This book focuses on Europe which lags mostly behind with IFE out of these three regions For example as opposed to the US no major European airline offers inflight Wi Fi widely on its network and in contrast to leading Middle Eastern airlines none offers inflight live TV or the usage of mobile phones without restriction like on the ground The target was to define IFE from a consumer perspective To capture the latter the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach which categorizes alternatives of a product or service in this case IFE in must be attractive and indifferent elements A representative online survey revealed movies and power to be must be TV and Wi Fi to be attractive and the rest e books music games and duty free onboard to be indifferent elements of IFE The majority of people indicated that they would pay for movies and Wi Fi but not for power supply TV or other content Differently said content wise passengers only insisted in the supply of movies for the rest they expected the airline to provide Internet and power so they themselves could get the content Further sub groups were analysed people within the sample with mutual characteristics like gender travel frequency or ownership of smart devices So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others Overall country of residence travel purp

The Future of Europe United States. Congress. Senate. Committee on Foreign Relations,United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on European Affairs,1991

The Future of the Natural Gas Market in Southeast Europe Public-Private Infrastructure Advisory Facility,2010-07-20 This study was to analyze the future role of natural gas in the energy mix of countries of South East Europe The study further identifies regional cross border and country specific gas infrastructure projects that are economically financially and technically sound The study also analyses and makes proposals for the institutional and policy issues relating to funding and implementing gas infrastructure projects The study examines sources of gas supply from Russia the Caspian region and other current and prospective producer countries through Turkey and other transit routes including LNG and assesses costs of supply and gasification prospects in nine gas markets in the South East Europe region Albania Bosnia and Herzegovina Bulgaria Croatia Kosovo Macedonia Montenegro Romania Serbia These markets are all signatories of the Athens Memoranda of 2002 and 2003 which

commit the participants to regional cooperation in electricity and gas *ECIE 2022 17th European Conference on Innovation and Entrepreneurship* Pantelis Sklias,Nikolaos Apostolopoulos,2022-09-15 *Energy Transitions and the Future of Gas in the EU* Gökçe Mete,2019-11-23 This book assesses the impact of energy transitions on the future of natural gas in the EU energy mix As we approach 2050 the requirement to sharply decrease CO₂ and other GHG emissions means that the role of gas infrastructure in the EU and beyond will change drastically But what does such change mean To address this question the author critically analyses the EU's evolving natural gas market policy and law Clearly structured throughout the book explores the following questions How can we maximise the potential of gas infrastructure to reduce carbon emissions What are the lessons learned from decision making experience in the natural gas sector Is the EU moving towards or away from a climate neutral gas sector How will green and low carbon gas technologies be supported And are proposals to drive a growing share of hydrogen biomethane and synthetic methane to the system just an excuse to prolong fossil fuel operations The book explores whether the EU will continue to subsidise natural gas projects or decarbonise the gas grid before 2050 and at what cost Recommendations are proposed for a new regulatory and policy framework for development and operation of hydrogen pipelines injection of biomethane into the existing gas grid and for pipelines carrying CO₂ Filling an important gap in the literature this book aims to develop an understanding of and clarify the complex range of legislation involved within a single analytical framework Although the focus is mainly on the future of gas in the EU the findings and recommendations are relevant for a much wider geography This book will be an invaluable reference to policy makers and practitioners as well as researchers and students across the social sciences interested in the future of energy
