The Flying Saucer Vision The Holy Grail Restored:

The Flying Saucer Vision. The Holy Grail Restored. [With Plates.]. John Michell, 1967 *The Holy Grail* Richard Barber, 2004-12-02 The Holy Grail is an image familiar to us all as an almost unattainable infinitely desirable goal The idea has passed into everyday speech and the legends behind it are as current in today s culture as they have ever been And yet the Grail has no real religious meaning and is nowhere mentioned in the Bible What is the truth behind this elusive symbol Here Barber traces the history of the stories surrounding the Holy Grail He describes how through a long series of imaginative transformations the grail has moved from the sphere of romance to religion and in twentieth century popular culture has become an emblem of mysticism and man s highest aspirations intimately linked with the central ritual of the Christian faith The search for the grail has always been described as a quest in this book Barber goes on his own quest brilliantly exploring the richness of the Holy Grail s cultural impact Barber traces the history of legends surrounding the Holy Grail from Chretien de Troyes great romances to the popular bestsellers of the late twentieth century The Holy Grail Richard W. Barber, 2004 In this fascinating work Barber traces the history of the legends surrounding the Holy Grail beginning with Chretien de Troyes s great romances of the 12th century and the medieval Church s religious version of the secular ideal The Parapsychology Revolution Robert M. Schoch, Logan Yonavjak, 2008-01-31 Grounded in both scientific acumen and constructive inquiry this anthology shines a rare clarifying light on the controversial realms of psychical and paranormal research surveying reports essays and arguments from more than a century of investigation into matters such as clairvoyance telepathy and past life regression In the past one hundred and twenty five years despite a relative paucity of funding and the troubling persistence of fraud serious inquiry into the paranormal particularly as it relates to clairvoyance and psychical perception has successfully entered the scientific age Studies in the modern laboratory employing rigorous methodology and peer reviewed oversight have conclusively detected statistical anomalies that suggest the presence of some not yet understood faculty of the human mind In *The Parapsychology Revolution* Robert M Schoch Ph D a scholar widely known for his geological theories that question the conventional dating of the Great Sphinx and researcher Logan Yonavjak introduce and anthologize core writings that underscore the range and continuing challenges of psychical research The book s extensive introduction and the editors commentary on individual essays and sections highlight milestones feuds and key players that mark the nascent history of this fascinating and important field of research Finally *The Parapsychology Revolution* addresses and clarifies the all important question Is there legitimate evidence for a world beyond the ordinary The Spiritual Meaning of the Sixties Tobias Churton, 2018-11-27 Unveils the spiritual meaning that fueled the artistic political and social revolutions of the 1960s Investigates the spiritual principles that informed everything from the civil rights and anti war movements to the hippies rejection of materialist culture to the rise of feminism gay rights and environmentalism Reveals how medieval troubadours Gnosticism Renaissance hermetic magic and the occult doctrines of

Aleister Crowley helped shape the psychedelic Sixties Offers in depth analysis of many of the era s most famous books films and music No decade in modern history has generated more controversy and divisiveness than the tumultuous 1960s For some the 60s were an era of free love drugs and social revolution For others the Sixties were an ungodly rejection of all that was good and holy Embarking on a profound search for the spiritual meaning behind the massive social upheavals of the 1960s Tobias Churton turns a kaleidoscopic lens on religious and esoteric history industry science philosophy art and social revolution to identify the meaning behind all these diverse movements Engaging with views of mainstream historians some of whom write off this pivotal decade as heralding an overall decline in moral values and respect for tradition Churton examines the intricate network of spiritual forces at play in the era He reveals spiritual principles that united the free love movement the civil rights and anti war movements the hippies rejection of materialist culture and the eventual rise of feminism gay rights and environmentalism He traces influences from medieval troubadours Gnosticism Hindu philosophy Renaissance hermetic magic and the occult doctrines of Aleister Crowley He also examines the psychedelic revolution the genesis of popular interest in UFOs and the psychological consequences of the Bomb and the assassinations of the Kennedys and Martin Luther King In addition Churton investigates the huge shifts in consciousness reflected in the movies music art and literature of the era from Frank Sinatra to the Beatles from I Love Lucy to Star Trek from John Wayne to Midnight Cowboy much of which still resonates with the youth of today Taking the reader on a long strange trip from crew cuts and Bermuda shorts to Hair and Woodstock from liquor to psychedelics from uncool to cool and from matter to Soul Churton shows how the spiritual values of the Sixties are now reemerging with an astonishing influx of spiritual light to once again awaken us

Understanding Cults and New Age Religions Irving Hexham, Karla Poewe, 1998-05 **Atlantis and the Cycles of Time** Joscelyn Godwin, 2010-11-18 A comprehensive study of the major occult writings on Atlantis Fully examines the many occult teachings on Atlantis including those from G I Gurdjieff Madame Blavatsky Julius Evola Edgar Cayce Fabre d Olivet and Dion Fortune Shows how these writings correlate with the concept of cyclical history such as the Mayan calendar and 2012 the Age of Aquarius and the four Yugas By a renowned scholar author editor and translator of more than 30 books Atlantis has held a perennial place in the collective imagination of humanity from ancient Greece onward Many of the great minds of the occult and esoteric world wrote at length on their theories of Atlantis about its high culture its possible location its ultimate demise and their predictions of a return to Atlantean enlightenment or the downfall of modern society Beginning with a review of the rationalist writings on Atlantis those that use geographic and geologic data to validate their theories renowned scholar Joscelyn Godwin then analyzes and compares writings on Atlantis from many of the great occultists and esotericists of the 19th and 20th centuries including Fabre d Olivet G I Gurdjieff Guido von List Julius Evola Edgar Cayce Dion Fortune and Ren Gu non whose writings often stem from deeper metaphysical sources such as sacred texts prophecy or paranormal communication Seeking to unravel and explain the histories and interpretations of Atlantis and its kindred myths of Lemuria

and Mu the author shows how these different views go hand in hand with the concept of cyclical history such as the Vedic system of the four Yugas the Mayan calendar with its 2012 end date the theosophical system of root races and the precession of the equinoxes Venturing broader and deeper than any other book on Atlantis this study also covers reincarnation human evolution or devolution the origins of race and catastrophe theory New Religions As Global Cultures Irving Hexham, 2018-02-12 Although the Great Anti Cult Crusade links new religious movements to dangerous cults brainwashing and the need for deprogramming Karla Poewe and Irving Hexham argue that many cults are the product of a dynamic interaction between folk religions and the teachings of traditional world religions Drawing on examples from Africa the United States Asia and Europe they suggest that few new religions are really new Most draw on rich if localized cultural traditions that are shaped anew by the influence of technological change and international linkages With the widespread loss of belief in biblical mythology in the nineteenth century new mythologies based on science and elements derived from various non Western religious traditions emerged leading to the growth and popularity of new religions and cults **Charles Olson's Reading** Ralph Maud, 1996 In this narrative account of the life and work of Charles Olson Ralph Maud focuses on what the poet read as a basis for understanding the work he produced To an extraordinary degree Olson's reading and life were coextensive according to Maud who notes that Olson saw his written output over his lifetime as a total cosmology An individual who rarely traveled this major American poet explored the world and its history as well as the furthest reaches of the thought of his day through books Maud builds upon George Butterick's annotated listing of Olson's library bought by the University of Connecticut after the poet's death in 1970 The present volume however adds categories of books Butterick deliberately omitted Olson's childhood books and poetry by his own contemporaries Linking Olson's books to his intellectual and poetic development at each stage of his career Maud reveals such little known but important connections as the contracted book project Operation Red White and Black and Olson's plan for the long poem West two unrealized projects much later shaped into The Maximus Poems Maud also outlines the surprisingly multiple role of the painter Corrado Cagli who brought home to Olson the significance of the Holocaust and introduced him both to the Tarot and to the theories of non Euclidean geometry that Olson variously incorporated into his poems and essays In discussing Olson's relationship to Ezra Pound Maud defines in some detail what Olson gained from Pound and what he repudiated Maud refutes the notion that Olson's intellectual and creative powers declined during the last years of his life demonstrating that during these years Olson developed his Jungian interest his attention to early Greek thought and a new concern for Northern mythology This chronicle of Olson's reading from childhood to deathbed constitutes a critical biography of the larger than life author of Call Me Ishmael and The Maximus Poems No modern poet is more revealed in his sources than Olson Maud's comprehensive and complete study provides a basis for new and fresh modes of thinking about Olson's great achievement *The Emergence of a Phenomenon--UFOs from the Beginning Through 1959* Jerome Clark, 1992
