The Founding Of A Nation

Elizabeth Richards

The Founding Of A Nation:

The Founding of a Nation Merrill Jensen, 2004-01-01 This wonderfully rich volume challenges those who claim that political history is arid narrow or worse irrelevant to our own concerns Jensen s study explores popular political mobilization on the eve of American independence It reconstructs the complex decisions that slowly often painfully transformed a colonial rebellion into a genuine revolution Jensen s well paced narrative never loses sight of the ordinary men and women who confronted the most powerful empire in the world T H Breen William Smith Mason Professor of American History Northwestern University

The Founding of a Nation Merrill Jensen, 1968 *The Founding of a Nation* Frank M. Gregg, 1915 This story is a narrative history of the Pilgrims of Plymouth Though not entirely in accordance with popular traditions which in many instances are erroneous it is in accordance with historical facts Francis Beaumont the narrator is a literary character Wherever Beaumont speaks of himself and events that affect him alone that part of the story is fiction but whenever he associates himself with the acts of the colonists that part is in the main recorded history for instance the breaking of the ship s beams the signing of the Compact the three voyages of discovery the planting of the colony in the great clearing the building of the houses the burning of the common house the discovery of the columns of smoke from the fires of the savages the various meetings at the common house the great sickness the deaths the coming of Samoset the visits of Massasoit the dread of the savages the first harvest festival the coming of the ship Fortune the great famine and other incidents of a similar character These events are all told chronologically with one exception i e the entrance of the Mayflower into Plymouth Harbor The date of the first attempt of the ship to gain the harbor was the fifteenth of December old style In the story this event has been placed on Christmas Day With this exception the story follows the history almost day by day The motif of the narrative is to have some one else besides the interested parties tell the story of the courage and hardships of these enduring people an epic of tragedy self denial romance famine pestilence death and heroism unsurpassed in the annals of man Foreword

The Founding of a Nation Frank Moody Gregg, 1915 **The Founding of a Nation** Elizabeth Richards, 2017-07-03 The story of our country really began way back in the history of England in the year 1215 when King John of England was forced by some of his barons to sign a document called the Magna Carta This document among other things prevented the king from taxing the barons without their consent King John had driven England nearly to bankruptcy because he spent so much money to fund his continual participation in the Crusades The Crusades were a period in history when Christian knights tried to take back the Holy Land which had been conquered by the Muslims The barons were tired of being taxed to pay for his wars This document was essentially a document in medieval times to clarify the differences between the three powers in England at the timethe Catholic Church the king and the barons This is an important document because it was the first time in history that people other than the king or the church were given some powers It did nothing about grant rights to the peasants and the merchant class This is important because it was the very first time in the history of

the world that the king and the church had their powers curbed Not one other country in the world at this time had a Magna Carta many still dont and this is important because it was the English who were the first ones to colonize the areas of our country which was first known as the thirteen colonies These colonists brought with them these truly revolutionary ideas of individual freedom **Founding of the nation** Rufus Lears, Samson Benderly, 1929 George Washington and the Founding of a Nation Albert Marrin, 2003-02-24 Pretty Birds **The South in the Building of the Nation: History of the intellectual life, ed. by J.B. Henneman**, 1909 **George Washington & the Founding of a Nation** Albert Marrin, 2001

A highly readable fast paced account of the life and times of George Washington **Rescuing History from the Nation** Prasenjit Duara, 1996-11-20 Prasenjit Duara offers the first systematic account of the relationship between the nation state nationalism and the concept of linear history Focusing primarily on China and including discussion of India Duara argues that many historians of postcolonial nation states have adopted a linear evolutionary history of the Enlightenment colonial model As a result they have written repressive exclusionary and incomplete accounts The backlash against such histories has resulted in a tendency to view the past as largely constructed imagined or invented In this book Duara offers a way out of the impasse between constructionism and the evolving nation he redefines history as a series of multiple often conflicting narratives produced simultaneously at national local and transnational levels In a series of closely linked case studies he considers such examples as the very different histories produced by Chinese nationalist reformers and partisans of popular religions the conflicting narratives of statist nationalists and of advocates of federalism in early twentieth century China He demonstrates the necessity of incorporating contestation appropriation repression and the return of the repressed subject into any account of the past that will be meaningful to the present Duara demonstrates how to write histories that resist being pressed into the service of the national subject in its progress or stalled progress toward modernity
