The Freedom of Man in Myth Kees W. Bolle, 2010-08-01 Myth is not a remote subject restricted to the limited intellect of pre logical man The question What is man is an ancient one It is also a recent one still unanswered in the impasse of our sciences Wherever and whenever human beings are alive there are creators of myth among them Kees Bolle singles out one group as having the most significant say in the formation of myths the mystics who epitomize the common urge for a simplicity beyond the whirlpool of personal existences And surprisingly the author finds that the study of humor provides a great deal of insight into the study of religious traditions
