Mullin,2015 Peering through the windows of private homes and Assembly Rooms alike this book shines a new light on the middle classes during the long eighteenth century Enlightenment thinking the drive for order organisation and rationality was an underlying motive force in England s eighteenth century influencing middle class thinking with regard to the running and improvement of business In the same way it shaped their choice of leisure activities As many turned their backs on blood sports they found that music conversation and cards embodied rational enjoyment and exercise of human intellect and ability For the middle classes card play made use of skills they had in hand and could be justified on the basis of teaching the young their numbers and the importance of accounting for money lost and won The careful score keeping the accounting for sums won and lost and the order and discipline of these players favourite card games echoed and suited their tidy lives As important participants in polite society on the strength of their new wealth and their increasing social prominence the middle classes embraced the agreeable pastimes of gentility while rejecting its dangerous extremes Card play became a means of forming and reinforcing social and commercial bonds within complex webs of family and business circles As they tugged the fashionable activity of gaming onto their own playing field from the high risk arena of the aristocracy the middle classes were imposing order on disorder subjecting a reckless activity to new restraints Drawing on the personal papers of the commercial

and professional classes of eighteenth century England A Sixpence at Whist tells the stories of these men and women at play

Gambling is an underrecognized problem from both a clinical and a public health point of view It is not uncommon for an adolescent or adult to participate in one form of gambling or another on a regular basis be it the lottery card playing for money sports wagering or gambling on electronic gaming devices Nor is it uncommon for such participation to reach excessive or destructive proportions with negative effects on the individual's psychological social economic and family life The results of the National Research Council's 2000 review of empirical studies suggest that 85% of adolescents report having gambled during their lifetime with 73% of adolescents reporting having gambled in the past year Despite gains in knowledge concerning the correlates and risk factors associated with severe gambling problems among youth during the past ten years a general lack of public and parental awareness exists This raises serious mental health and

public policy concerns Written from an international perspective this book covers gambling research and interventions in the following categories role of helpline services a Jungian transpersonal approach to treatment cognitive therapy for problem gambling pharmacological interventions for problem gambling desensitization biofeedback as treatment for problem gambling binge gambling pathological gambling past and contemporary aboriginal peoples experiences with gambling problem gambling counselor certification measurement of outcomes in problem gambling treatment overview of teen gambling related issues from leading researchers The History of Problem Gambling Peter Ferentzy, Nigel Turner, 2013-03-26 This book documents the history of ideas about problem gambling and its link to addictive disorders The book uses a combination of literature review and conceptual and linguistic analysis to explore the way ideas about problem gambling have changed over time It examines the religious socio cultural and medical influences on the development of the concept of problem gambling as a disease along with the ways in which such ideas were influenced by attitudes about substance abuse The history of mental illness notably as it pertains to themes such as loss of control over behavior is also addressed The book ends with a discussion of the current status and future prospects with an eye to which ideas about problem gambling and addictions seem most promising and which should perhaps be left behind Maggs Brothers Catalogues Maggs Bros, 1914 Catalogue Maggs Bros, 1902
