Activism and Resistance is an edited volume that explores the critical intersection of public theology political theology and communal practices of activism and political resistance This volume functions as a sister companion to the text Religion and Science as Political Theology Navigating Post Truth and Alternative Facts and focuses on public civic performative action as a response to experiences of injustice and diminishments of humanity There are periods in a nation s civil history when the tides of social unrest rise into waves upon waves of public activism and resistance of the dominant uses of power In American history activism and public action including and extending beyond the Women s Suffrage the Million Man March protests against the Vietnam War the Civil Rights Movement Boston Tea Party Black Lives Matter the Stonewall Rebellion are hallmarks of transitional or liminal moments in our development as a society Critical periods marked by increases in public activism and political resistance are opportunities for a society to once again decide who we will be as a people Will we move towards a more perfect union in which all persons gain freedom in fulfilling their potential or will we choose the perceived safety of the status quo and established norms of power Whose voices will be heard Whose will be silenced through intimidation or harm Ultimately these are theological questions Like other forms of non textual research subjects movement dance performance art public activism requires a set of research lenses that are often neglected in theological and religious studies Attention to bodies as a category performance or epistemological vehicle is sorely lacking so it is no wonder that attention to the mass of moving bodies in activism is largely absent Activism and public political resistance are a hallmark of our current social webbing and deserve scholarly attention Taking It Like a Man David Savran,1998-03-30 From the Beat poets incarnation of the white Negro through Iron John and the Men s Movement to the paranoid masculinity of Timothy

McVeigh white men in this country have increasingly imagined themselves as victims In *Taking It Like a Man* David Savran explores the social and sexual tensions that have helped to produce this phenomenon Beginning with the 1940s when many white middle class men moved into a rule bound corporate culture Savran sifts through literary cinematic and journalistic examples that construct the white man as victimized feminized internally divided and self destructive Savran considers how this widely perceived loss of male power has played itself out on both psychoanalytical and political levels as he draws upon various concepts of masochism the most counterintuitive of the so called perversions and the one most insistently associated with femininity Savran begins with the writings and self mythologization of Beat writers William Burroughs Allen Ginsberg and Jack Kerouac Although their independent law defying lifestyles seemed distinctively and ruggedly masculine their literary art and personal relations with other men in fact allowed them to take up social and psychic positions associated with women and racial minorities Arguing that this dissident masculinity has become increasingly central to U S culture Savran analyzes the success of Sam Shepard as both writer and star as well as the emergence of a new kind of action hero in movies like Rambo and Twister He contends that with the limited success of the civil rights and women s movements white masculinity has been reconfigured to reflect the fantasy that the white male has become the victim of the scant progress made by African Americans and women *Taking It Like a Man* provocatively applies psychoanalysis to history The willingness to inflict pain upon the self for example serves as a measure of men s attempts to take control of their situations and their ambiguous relationship to women Discussing S M and sexual liberation in their historical contexts enables Savran to consider not only the psychological function of masochism but also the broader issues of political and social power as experienced by both men and women **I'm Getting My ACT Together and Taking It on the Road** Nancy Ford, Gretchen Cryer, 1976
