The Museum of Foreign Literature, Science, and Art Robert Walsh, Eliakim Littell, John Jay Smith, 1836 **Museum of Foreign Literature, Science and Art**, 1836 Daily Life in Colonial New England Claudia Durst Johnson, 2017-04-17 This book presents a unique perspective on life in Colonial England exposing many misconceptions and depicting how elements of its culture that are typically regarded as marginal such as the activities of pirates actually had an extensive impact of the populace The daily lives of most colonial New Englanders were much more colorful and exotic than the drab pious picture many of us have in mind Daily Life in Colonial New England exposes as myth much of what we might believe about this era and reveals surprising truths for example that sex was openly discussed in Colonial times and was regarded as a welcome necessity of married life and that women had more legal and marital rights than they did in the 19th century The book

describes topics such as the legal and sexual rights of women the extent of infant mortality the lives of underclass citizens who formed the majority in New England such as indentured servants African slaves debtors and criminals and the integral role that pirates played in business and employment during the Colonial period Readers will gain deeper insight into what life during this period was like through accounts of the real terror of being one of the accused in witch hunts and the sympathy that the general population had for dissidents who were questioned and arrested by the government Primary materials that range from legal documents to sermons letters and diaries are used as sources that verify historical ideas and events

Engendering Democracy in Africa Niamh Gaynor, 2022-06-01 This book investigates women's political participation in Africa Going beyond the formal institutions of electoral politics it explores a range of spaces where everyday politics take place at national and at local levels In recent years there have been significant improvements in the number of women elected to parliament in Africa However there is little indication that this is translating into better developmental outcomes and indeed there is mounting evidence that it could in fact help to bolster some authoritarian regimes Starting from the premise that politics is a far broader project than securing a seat in national or local legislatures alone this book explores the opportunities for women's political participation across a number of informal spaces where women and men gather organise and interact in a more regular and systematic manner Combining insights from political science sociology and feminist theory and drawing on detailed cases from the Congo Kenya Malawi Nigeria and Rwanda it examines how power in its multiple dimensions circulates across a range of everyday political spaces while drawing attention to the links between domestic gender inequalities and the global political economy Inviting scholars practitioners and activists to broaden their focus beyond formal electoral institutions if they want to support women to become more politically active this book provides fresh insights into major issues at the heart of African studies development studies gender and development democratisation and international relations
