Sociology Beyond Societies John Urry,2012-11-12 In this ground breaking contribution to social theory John Urry argues that the traditional basis of sociology the study of society is outmoded in an increasingly borderless world If sociology is to make a pertinent contribution to the post societal era it must forget the social rigidities of the pre global order and instead switch its focus to the study of both physical and virtual movement In considering this sociology of mobilities the book concerns itself with the travels of people ideas images messages waste products and money across international borders and the implications these mobilities have to our experiences of time space dwelling and citizenship Sociology Beyond Society extends recent debate about globalisation both by providing an analysis of how mobilities reconstitute social life in uneven and complex ways and by arguing for the significance of objects senses and time and space in the theorising of contemporary life This book will be essential reading for undergraduates and graduates studying sociology and cultural geography

Capturing the Beat Moment Erik Mortenson, 2010-11-02 CHOICE

Outstanding Academic Title Examining the moment as one of the primary motifs of Beat writing Erik Mortenson offers the first book to investigate immediacy and its presence and importance in Beat writing *Capturing the Beat Moment Cultural Politics and the Poetics of Presence* places an expanded canon of Beat writers in an early postmodern context that highlights their importance in American poetics and provides an account of Beat practices that reveal how gender and race affect Beat politics of the moment Mortenson argues that Beat writers focused on action desire and spontaneity to establish an authentic connection to the world around them and believed that living in the moment was the only way in which they might establish the kind of life that led to good writing With this in mind he explores the possibility that far from being the antithesis of their times the Beats actually were a product of them Mortenson outlines the effects of gender and race on Beat writing in the postwar years as well as the Beats attempts to break free of the constrictive notions of time and space prevalent during the 1950s Mortenson discusses such topics as the importance of personal visionary experiences the embodiment of sexuality and the moment of ecstasy in Beat writing how the Beats used photographs to evoke the past and the ways that Beat culture was designed to offer alternatives to existing political and social structures Throughout the volume Mortenson moves beyond the Kerouac Ginsberg Burroughs triumvirate commonly associated with Beat literature discussing women such as Diane di Prima Janine Pommy Vega and Joyce Johnson and African American writers including Bob Kaufman and Amiri Baraka With the inclusion of these authors comes a richer understanding of the Beat writers value and influence in American literary history

Partial Visions Angelika Bammer,2012-12-06 Positing that a radical utopianism is one of the most vital impulses of feminist politics *Partial Visions* traces the articulation of this impulse in the work of Euro American French and German women writers of the 1970s It argues that this feminist utopianism both continued and reconceptualized a critical dimension of Left politics yet concludes that feminist utopianism is not just visionary but myopic time and culture bound as well

Waiting Ghassan Hage,2009-07-15 In this rich and insightful collection of essays leading anthropologist Ghassan Hage brings together academics across political science philosophy anthropology and sociology for an examination into the experience of waiting What is it to wait What do we wait for And how is waiting connected to the social worlds in which we live From Beckett s darkly comic play *Waiting for Godot* to the perpetual waiting of refugees to return home or to moments of intense anticipation such as falling in love or the birth of a baby there are many ways in which we wait This compelling collection of essays suggests that this experience is among the essential conditions that make us human and connect us to others

Michèle Roberts Sarah Falcus,2007 This book provides an accessible and yet thorough analysis of the work of Michèle Roberts a prolific half English and half French writer who can claim both literary and popular appeal Roberts s work is examined alongside contemporary feminist theory particularly the work of Luce Irigaray and feminist philosophers of religion The book traces the development of Roberts s work from its origins in the feminist movement of the seventies through its engagement with the philosophy of religion and its interest in historiography to the postmodern playfulness of her

latest work At the same time the book does acknowledge enduring concerns in her oeuvre particularly the fascination with the mother daughter relationship and the desire to engage with and rewrite both history and myth The book offers detailed readings of Roberts s novels together with a selection of her short stories and poetry **Bodies at Work** Carol

Wolkowitz,2006-07-10 After reading this book it will be more difficult to do the sociology of work and the sociology of the body in the absence of the other In some quite exquisite ways it throws down a challenge which practitioners in both fields will find difficult to ignore Paul Stewart former editor of Work Employment and Society University of the West of England Bodies at Work provides the first full length accessible account of the body work relation in contemporary western societies Bringing together fields of sociology that have hitherto developed mainly along separate lines the book demonstrates the relevance of concepts developed in the sociology of the body for enriching our understanding of changing patterns of work and employment Bodies at Work begins by establishing key concerns in both the sociology of the body and the sociology of work Drawing on existing research the author proceeds to examine a wide range of employment sectors industrial employment customer relations health practice care work the beauty industry and sex work The contribution of feminist theory and research is highlighted throughout and analyses of photographs help the reader conceptualise the changing nature of the body work relationship over time Bodies at Work helps readers think more clearly and creatively about how work relations shape bodily experience *Contested Natures* Phil Macnaghten,John Urry,1998-03-06 Demonstrating that all notions of nature are inextricably entangled in different forms of social life the text elaborates the many ways in which the apparently natural world has been produced from within particular social practices These are analyzed in terms of different senses different times and the production of distinct spaces including the local the national and the global The authors emphasize the importance of cultural understandings of the physical world highlighting the ways in which these have been routinely misunderstood by academic and policy discourses They show that popular conceptions of and attitudes to nature are often contradictory and that there are no simple ways of prevailing upon people to save the environment *Modern Maternities* Ranjana Saha,2023-07-27 Modern Maternities Medical Advice about Breastfeeding in Colonial Calcutta brings to light rare textual and visual materials on medical opinions about breastfeeding by memsahibs European women dais indigenous midwives and or wet nurses and the bhadramahila here the focus is on respectable Bengali Hindu women With the help of archival resources the author discusses themes like modernity maternities and medicine intersections of race gender class caste community and age in diet artificial foods versus wet nursing cleanliness corporeality and culture clean midwifery versus dirty midwifery customary breastfeeding practices child mothers and childcare breastfeeding mothercraft and modern clocks exhibitions baby shows and baby weeks colonialism and anti colonial nation building The book offers critical insights into social histories of medicine motherhood and childcare in nineteenth and early twentieth century colonial Calcutta It is intended for anyone interested in the book s interdisciplinary focus on the regional national and global

resonances of childrearing advice In particular it will interest scholars and researchers from modern Indian history global history health history medical anthropology gender studies and South Asian studies *Time, work and leisure* Hugh Cunningham,2016-05-16 This book traces the history of the relationship between work and leisure from the leisure preference of male workers in the eighteenth century through the increase in working hours in the later eighteenth and early nineteenth centuries to their progressive decline from 1830 to 1970 It examines how trade union action was critical in achieving the decline how class structured the experience of leisure how male identity was shaped by both work and leisure how in a society that placed high value on work a leisured class was nevertheless at the apex of political and social power until it became thought of as the idle rich Coinciding with the decline in working hours two further tranches of time were marked out as properly without work childhood and retirement Accessible wide ranging and occasionally polemical this book provides the first history of how we have imagined and used time *At the Breast* Linda Blum,2000-06-09 In our ironic postfeminist age few experiences inspire the kind of passions that breastfeeding does For advocates breastfeeding is both the only way to supply babies with proper nutrition and the bond that cements the mother child relationship Mother's milk remains natural in a world of genetically modified produce and corporate health care But is it a realistic option for all women And can a well intentioned insistence on the necessity of breastfeeding become just another way to cast some women as bad mothers Linda M Blum is author of *Between Feminism and Labor The Significance of the Comparable Worth Movement* She teaches sociology and women's studies at the University of New Hampshire and wrote this book while a Bunting Fellow at the Radcliffe Institute for Advanced Study
