Martin,2013-11-15 There is no such thing as the ivory tower Rather there sit side by side numerous windowless towers of knowledge each seeming to have only a small entrance and no discernable exit Paul Martin Multilingual multicultural and vast Canada enjoys a rich diversity of literatures So why does Canadian Literature as it has been taught fail to encompass a common geography history and government yet reveal the diverse experiences of its immigrants long term residents and original peoples Martin s research interviews with 95 professors in 27 universities maps the institutional chasms in communication and the nature of their persistence His own example of venturing out from his tower to dialogue with colleagues shows a way toward cultivating a conception of the literatures of Canada that is expansive and inclusive Canadianists professors of English French Postcolonial and Comparative Literatures and leaders in education will profit from Martin s frank investigations

Promoting Canadian Studies Abroad Stephen Brooks,2018-06-13 This volume examines the history and current state of Canadian studies in a number of countries and regions across the world including Canada s major trading partners From the mid 1980s until 2012 Canadian studies was seen as an important tool of soft power increasing awareness of Canadian culture institutions and history The abrupt termination in 2012 of the Canadian government s financial support for these activities triggered a debate that is still ongoing about the benefits that may have flowed from this support and whether the decision should be reversed The contributors to this book focus on the process whereby Canadian studies became institutionalized in their respective countries and on the balance between what might be described as Canadian studies for its own sake versus Canadian studies as a deliberate instrument of cultural diplomacy

Rosenberg,2007-08-02 Essays exploring the importance of archives as artifacts of culture **Re-exploring Canadian Space** Jeanette M. L. den Toonder,Bettina van Hoven,2012 A variety of productions and representations of Canadian identities are the central theme that runs through this book The different contributions explore imagined spaces by considering Canadian music poetry and novels they engage with political space by addressing various ways in which the people of Canada have made claims to different regions in the distant and recent past and they address lived spaces and their actual and symbolic meanings It is an unusual book as it encompasses the writings by those studying the arts and literature as well as writings by social scientists and it includes both English and French speaking scholars The richness that can be found in this multitude of perspectives and approaches to exploring Canadian space is characteristic of the way in which Canadian Studies is practiced nowadays It is therefore an appropriate volume to celebrate 20 years of Canadian Studies in the Netherlands
