Taking The University To The People Seventy Five Years Of Cooperative Extension:

Taking the University to the People Wayne D. Ramussen, 2002-09 Taking the University to the People will be of interest to agricultural historians and economists rural sociologists economic planners political scientists and the many involved in Extension Services This commemorative volume celebrates the seventy five year history of Cooperative Extension and briefly considers its potential role and continuing significance for the twenty first century **Envisioning Public Scholarship for Our Time** Adrianna J. Kezar, Yianna Drivalas, Joseph A. Kitchen, 2023-07-03 This book proposes a new paradigm of public scholarship for our time one that shifts from the notion of the public intellectual to the model of the engaged scholar The editors premise is that the work of public scholarship should be driven by a commitment to supporting a diverse democracy and promoting equity and social justice The contributors to this volume present models that eschew the top down framing of policy to advocate for practice that drives bottom up change by arming the widest range of stakeholders especially members of marginalized communities with relevant research They demonstrate how public scholarship in higher education can increase its impact on practice and policy and compellingly argue that public scholarship should be recognized as normative practice for all scholars and indeed integrated into the curriculum of graduate courses The chapters describe multiple types of public scholarship and different strategies that move beyond informing policymakers faculty and administrators to engage publics such as students and parents media the general public and particularly groups that may have had little or no access to research Examples include partnering with a community agency to design a research project and disseminate results writing for practitioner or policy venues and magazines outside the traditional academic journals serving on boards for national groups that impact decisions related to your area of research and the use of social media Whether scholar director of graduate education or graduate student of higher education this book opens up a new vision of how research can inform practice that promotes the public good **Marketing University Outreach Programs** Ralph S Foster, William I Sauser, Donald Self, 2014-01-14 Discover the successful marketing strategies of programs which have extended the resources of a university to its community Marketing University Outreach Programs covers all aspects of continuing education program construction and the marketing process for positioning the university into the public This book begins to eradicate academicians fears of marketing by showing them a contemporary marketing plan using terminology and examples familiar to them Seventeen contributors professors administrators and outreach professionals comprehensively describe the strategies being successfully used to extend the resources of a university to its community through programs of extension public service and continuing education Although many existing models of the education process contain parallels to elements in a generic marketing process education is not viewed as a consumer product Even educators may not view themselves as marketers involved in a marketing process This attitude can place barriers between understanding the marketing process and how it relates to education Marketing University Outreach Programs helps educators overcome these

potential barriers it explains marketing as a comprehensive process using terminology and examples which university extension and education professionals will find familiar and understandable Application oriented it cites numerous examples of how the marketing process can be put to use immediately Each chapter explores in depth a separate segment of the marketing process involved in public university outreach programs issue based versus discipline based programs program delivery and delivery technology funding outreach programs comprehensive promotional strategy customer service long range planning marketing research information resources future trends model programs This book is of value to the faculty of universities specifically those in the disciplines with a mandate for professional renewal or recertification engineering medicine education faculty and professional staff in divisions of continuing education program leadership in cooperative extension organizations as well as those in other identifiable university extension units and faculty affiliated with applied research centers Members of professional associations focused on higher education outreach can also successfully apply these strategies
