Did I Listen?

Listening often involves not understanding what is being said. We need to focus on the person who is talking and not be distracted by people or things that are going on around us.

We're going to listen.

We're going to listen.

We're going to listen.

How Do You Know When You Are Being Listened To?

What does it mean when you feel like you are being listened to?

What do the people who are listening to you do that make you feel like this?

Remember that people who are listening to you are also listening to you.

For example, the person listening might not look at you or they might not listen to you.

Remember: Listen to the person who is talking.
