Taking Stock Animal Farming And The Environment:

Taking Stock Alan Thein Durning, Holly B. Brough, 1991 First the importance of livestock economy in different parts of the world the ecological aspects of the livestock industry and the relationship between feed and food are set out Then the requirements for a sustainable livestock industry are discussed **Animal Geographies** Jennifer Wolch, Jody Emel, 1998-09-17 Each year billions of animals are poisoned dissected displaced killed for consumption or held in captivity usually for the benefit of humans The animal world has never been under greater peril and this broad ranging collection contributes to a much needed fundamental rethinking about our relation with it Animal Geographies explores the diverse ways in which animals shape the formation of human identity Essays on zoos and wolves for example reveal how animals figure in social constructions of race gender and nationality From questions of identity and subjectivity it moves to a consideration of the places where people and animals confront the realities of coexistence on an everyday basis by way of case studies of species such as mountain lions and the golden eagle It then examines the ways in which animals figure in the ongoing globalization of production and mass consumption illustrated by essays on the US meatpacking industry and meat production in the Indian state of Rajasthan and finally takes up legal and ethical approaches to human animal relations Animal Geographies compels a profound rethinking of the nature of human animal relations and offers a series of proposals for reconstituting this relationship on a progressive basis Contributors Kay Anderson Glen Elder Andrea Gullo Unna Lassiter William S Lynn Suzanne M Michel Chris Philo James D Proctor Paul Robbins Frances M Ufkes James L Wescoat Jr ,

The Pan-European Ecological Network--taking Stock Marie Bonnin, Council of Europe. Committee of Experts for the Development of the Pan-European Ecological Network, 2007-01-01 The pace of biodiversity decline is quickening worldwide Habitat break up pollution over use of natural areas and the creation of artificial landscapes increase the rate of erosion while reducing species opportunity for migration dispersion and exchange In 1995 when the European Ministers of the Environment met in Sofia they launched the Pan European Biological and Landscape Diversity Strategy so as to strengthen environment and biodiversity conservation policies The setting up of the Pan European Ecological Network covering Eurasia was one of the key steps taken under the Strategy Work has continued on this project and it is now based on the numerous national regional and transregional ecological networks being set up throughout Europe In Kiev in 2003 the Ministers and heads of delegation noted these positive developments expressed firm support for the creation of the Pan European Ecological Network and asked for its constituent parts to be identified and mapped on a pan European scale This book looks at the implementation of this Network in the 55 states concerned It has been written by a team comprising under the aegis of the Council of Europe numerous government experts and specialists dealing with the issue of ecological networks It is intended to reassure Ministers policy makers and scientists that they made the right decision in supporting the creation of the Pan European Ecological Network with a view to re creating a true green infrastructure for Europe *Global*

Sustainability Gilberto C. Gallopín, Paul D. Raskin, 2003-09-02 Unprecedented levels of wealth technology and institutional capacity can forge a just peaceful and ecologically resilient future However the authors argue social polarization geo political conflict and environmental degradation are threatening the long term well being of humanity and the planet Global Sustainability explores the alternative futures that could emerge from the resolution of these antagonisms Based on extensive international and interdisciplinary research the book identifies the perils of market driven scenarios and considers the possibility of the failure of conventional approaches It also however presents a vision of the possibility of a Great Transition in which revised human values and development goals bring a new stage of civilization It will be essential reading for all scholars and professionals interested in the future of the environment international affairs and sustainable development

Full House Lester R. Brown, Hal Kane, 2023-10-02 Originally published in 1995 after decades of steady growth this book was written at a time when the world's food supply was no longer keeping up with population increases This book examines the causes of the imbalance in the food population equation and suggests ways in which Malthusian checks can be countered It calls for an international strategy to restore global security and a budget to implement it with a massive redirection of the world's financial resources On one side of the argument the authors advocate increased expenditure on family planning services education and women's rights On the other they stress the environmental importance of reforestation and soil conservation schemes to halt the deterioration of the agricultural resource base

The Omnivore's Dilemma Michael Pollan, 2009-10-15 This acclaimed bestseller and modern classic has changed America's relationship with food It's essential reading for kids who care about the environment and climate change What's for dinner seemed like a simple question until journalist and supermarket detective Michael Pollan delved behind the scenes From fast food and big organic to small farms and old fashioned hunting and gathering this young readers adaptation of Pollan's famous food chain exploration encourages kids to consider the personal and global implications of their food choices With plenty of photos graphs and visuals The Omnivore's Dilemma serves up a bold message to the generation most impacted by climate change It's time to take charge of our national eating habits and it starts with you
