Department of the Air Force, 1976 *The Tale of Two Bridges and the Battle for the Skies Over North Vietnam* Office of Air Force History, U. S. Air Force, 2015-01-25 Many documents articles and stories have been written about U S Air Force operations in Southeast Asia SEA However given the critical in depth coverage commensurate with our level of involvement This volume the first in a USAF Southeast Asia Monograph series is an attempt to document the story of AIR POWER and the people behind it in our nation s longest armed conflict For eight years American airman fought with a multitude of missions evolving weaponry ever changing tactics and maybe most notable constantly changing constraints In this volume authors from the Air War College and Air Command and Staff College who actually fought there have combined for two excellent monographs of the people and weapons in SEA The authors breadth of combat experience provides a penetrating account of airpower brought to bear with all the emotion frustrations bravery and confusion of real life For the general reader these stories tell of airpower in human terms and should give some understanding of the spirit courage and professionalism of our U S airmen To the student of airpower interested in improving the effectiveness of our Air Force the monographs make an excellent case study of tactical air doctrine The entire series is dedicated to ALL who served *Gradual failure : the air war over North Vietnam 1965-1966* Jacob Van Staaveren, 2002 Of

the many facets of the American war in Southeast Asia debated by U S authorities in Washington by the military services and the public none has proved more controversial than the air war against North Vietnam The air war s inauguration with the nickname Rolling Thunder followed an eleven year American effort to induce communist North Vietnam to sign a peace treaty without openly attacking its territory Thus Rolling Thunder was a new military program in what had been a relatively low key attempt by the United States to win the war within South Vietnam against insurgent communist Viet Cong forces aided and abetted by the north The present volume covers the first phase of the Rolling Thunder campaign from March 1965 to late 1966 It begins with a description of the planning and execution of two initial limited air strikes nicknamed Flaming Dart I and II The Flaming Dart strikes were carried out against North Vietnam in February 1965 as the precursors to a regular albeit limited Rolling Thunder air program launched the following month Before proceeding with an account of Rolling Thunder its roots are traced in the events that compelled the United States to adopt an anti communist containment policy in Southeast Asia after the defeat of French forces by the communist Vietnamese in May 1954

Air War Over North Vietnam Stephen Emerson, 2018-02-28 In early 1965 the United States unleashed the largest sustained aerial bombing campaign since World War II against North Vietnam Through an ever escalating onslaught of destruction Operation Rolling Thunder intended to signal Americas unwavering commitment to its South Vietnamese ally in the face of continued North Vietnamese aggression break Hanoi political will to prosecute the war and bring about a negotiated settlement to the conflict It was not to be Against the backdrop of the Cold War and fears of widening the conflict into a global confrontation Washington policy makers micromanaged and mismanaged the air campaign and increasingly muddled strategic objectives and operational methods that ultimately sowed the seeds of failure despite the heroic sacrifices by U S Air Force and Navy pilots and crews Despite flying some 306 000 combat sorties and dropping 864 000 tons of ordnance on North Vietnam 42 per cent more than that used in the Pacific theater during World War II Operation Rolling Thunder failed to drive Hanoi decisively to the negotiating table and end the war That would take another four years and another air campaign But by building on the hard earned political and military lessons of the past the Nixon Administration and American military commanders would get another chance to prove themselves when they implemented operations Linebacker I and II in May and December 1972 And this time the results would be vastly different
