*A Tale of Two Murders* James R. Farr, 2005-09-28 A compelling account of a 17th century murder mystery and a well researched scholarly work that explores the dynamics of power justice and law in Louis XIII s France *A Tale of Two Murders* James Richard Farr, 2008 Giroux affair was a maelstrom of intrigue encompassing daggers poison adultery arch enemies servants royalty and legal proceedings that reached the pinnacle of seventeenth century French society In 1638 Philippe Giroux a judge in the highest royal court of Burgundy allegedly murdered his equally powerful cousin Pierre Baillet and Baillet s valet Philibert Neugot The murders were all the more shocking because they were surrounded by accusations particularly that Giroux had been carrying on a passionate affair with Baillet s wife conspiracy theories including allegations that Giroux tried to poison his mother in law and unexplained deaths Giroux s wife and her physician died under suspicious circumstances The trial lasted from 1639 until 1643 and came to involve many of the most distinguished and influential men in France among them the prince of Conde Henri II Bourbon the prime minister Cardinal Richelieu and King Louis XIII Book jacket *Making Money in Sixteenth-Century France* Jotham Parsons, 2015-02-06 Coinage and currency abstract and socially created units of value and power were basic to early modern society By controlling money the people sought to understand and control their complex expanding and interdependent world In *Making Money in Sixteenth Century France* Jotham Parsons investigates the creation and circulation of currency in France The royal Cour des Monnaies centralized monetary administration expanding its role in the emerging modern state during the sixteenth century and assuming new powers as an often controversial repository of theoretical and administrative expertise The Cour des Monnaies Parsons shows played an important role in developing the contemporary understanding of money as a source of both danger and opportunity at the center of economic and political life More practically the Monnaies led generally successful responses to the endemic inflation of the era and the monetary chaos of a period of civil war Its work investigating and prosecuting counterfeiters shone light into a picaresque world of those who used the abstract and artificial nature of money for their own ends Parsons s broad multidimensional portrait of money in early modern France also encompasses the literature of the age in which money s arbitrary and dangerous power was a major theme **Murder, Justice, and Harmony in an Eighteenth-Century French Village** Nancy Locklin, 2019-10-08 In 1718 a young woman named Moricette Nayl fought with her brother s mother in law and accidentally killed her Ruled a homicide the incident set in motion an investigation a trial Moricette s flight from justice an execution in effigy and ultimately the pardon of the killer and her reintegration into the community Based on the detailed records of the court dossier this microhistory reveals the social networks of a small town the history of interpersonal violence the complex criminal justice system at work and the power of restoring harmony after a tragedy of this magnitude An enduring mystery is the reluctance of those closest to the crime to participate in the legal process An explanation for their silence sheds light on the turmoil of the criminal justice system in France in the decades

leading up to the French Revolution Neither independent feudal lords nor an elite tamed by an Absolutist king the gentlemen overseeing justice in this place maintained a delicate balance between their personal power and the rule of law The incident and its aftermath also reveal the bonds that make community possible even in the face of senseless violence The Would-be Commoner Jeffrey S. Ravel, 2008 The case became a cause celebre across France an obsession among everyone from the peasantry to the courts from the Comedie Francaise to Louis XIV himself It was finally left to a brilliant young jurist Henri Francois d Aguesseau to separate fact from fiction and set France on a path to a new and enlightened view of justice BOOK JACKET Social Relations, Politics, and Power in Early Modern France Barbara B. Diefendorf, 2016-09-01 The study of history is a fundamentally sociable practice with the exchange of ideas taking place in writing over the seminar table and often in informal discussions over food These essays grew out of a web of sociability centered around French historian Robert Descimon and focus on the nexus of social relations politics and power in France as it moved from the age of religious wars into the age of absolutism Using a wide variety of historical approaches and methods these essays offer new insights into the evolving role of early modern elites and the social familial and cultural influences that shaped their values and priorities

Aspects of Violence in Renaissance Europe Dr Jonathan Davies, 2013-09-28 Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field The early modern period is particularly ripe for further investigation because of the pervasiveness of violence Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times *Family Business* Julie Hardwick, 2009-06-25 In seventeenth century France families were essential as both agents and objects in the shaping of capitalism and growth of powerful states phenomena that were critical to the making of the modern world For household members neighbours and authorities the family business of the management of a broad range of tangible and intangible resources law borrowing violence and marital status among them was central to political stability economic productivity and cultural morality The business of family life involved relationships that could be intimate family and neighbours intermediate litigant and judge or distant governing authority and subject and the resources in question were the currency of the early modern world these people knew In all these regards

litigation was a key means of negotiating and contesting the challenges of daily life and the larger developments in which they were embedded The relationships between families economies and states have often been reframed but the perils as well as promises have persisted Then as now husbands and wives found the experience of marriage to be fraught with uncertainty and risk economic insecurity and ubiquitous borrowing were profound challenges domestic violence was a telling marker of inequality in families Julie Hardwick examines a critical period in the long history of family business to highlight the centrality of the lived experiences of working families in major political economic and cultural transitions

**Law, City, and King** Michael P. Breen, 2007 An in depth examination of political activities in early modern France that opens up new perspectives on the local workings of the French state and the experiences of those who participated in it Law City and King provides important new insights into the transformation of political participation and consciousness among urban notables who bridged the gap between local society and the state in early modern France Breen s detailed research shows how the educated socially middling *avocats* who staffed Dijon s municipality used law patronage and the other resources at their disposal to protect the city council s authority and their own participation in local governance Drawing on juridical and historical authorities the *avocats* favored a traditional conception of limited absolute monarchy increasingly at odds with royal ideology Despite their efforts to resist the monarchy s growth the expansion of royal power under Louis XIV eventually excluded Dijon s *avocats* from the French state In opening up new perspectives on the local workings of the French state and the experiences of those who participated in it Law City and King recasts debates about absolutism and early modern state formation By focusing on the political alienation of notables who had long linked the crown to provincial society Breen explains why Louis XIV s collaborative absolutism did not endure At the same time the book s examination of lawyers political activities and ideas provides insights into the transformation of French political culture in the decades leading up to the French Revolution Michael P Breen is Associate Professor of History and Humanities at Reed College in Portland Oregon

*Women and Death* Helen Fronius, Anna Linton, 2008 Identifies and analyzes thematizations of women and death from the

past five centuries illuminating the present and recent past The theme of women and death is pervasive in the German culture of the past five centuries With the conviction that only an interdisciplinary approach can explore a typology as far reaching and significant as this and in accordance with the feminist tenet that images are accountable for norms this volume investigates how iconic representations of women and death came about and why they endure Traditionally representations of women as agents of death when they have been considered at all have been considered separately from women as victims as though there was no shared thematic ground Here familiar depictions of female victims are examined alongside the more unsettling spectacle of women as killers exposing cultural assumptions Essays explore among others the themes of virgin sacrifice and female infanticides Death and the Maiden in art female vampires in literature and women killers in the media Others compare cultural practices such as female mourning across historical contexts examining change and the reasons for it The authors judgments eschew the simplistic and programmatic contributing not just to current research in German literature but also to understanding of cultural history in general Contributors Stephanie Kn ll Ruth B Bottigheimer Anna Linton Bettina Bildhauer Mary Lindemann Helen Fronius Anna Richards J rgen Barkhoff Lawrence Kramer Kathrin Hoffmann Curtius Clare Bielby Gisela Ecker Anna Linton is Lecturer in German at Kings College London and Helen Fronius is an AHRC Research Fellow and College Lecturer at Exeter College Oxford

*Women, Crime, and Forgiveness in Early Modern Portugal* Darlene Abreu-Ferreira, 2016-03-09 Looking at the experiences of women in early modern Portugal in the context of crime and forgiveness this study demonstrates the extent to which judicial and quasi judicial records can be used to examine the implications of crime in women s lives whether as victims or culprits The foundational basis for this study is two sets of manuscript sources that highlight two distinct yet connected experiences of women as participants in the criminal process One consists of a collection of archival documents from the first half of the seventeenth century a corpus called querelas in which formal accusations of criminal acts were registered This is a rich source of information not only about the types of crimes reported but also the process that plaintiffs had to follow to deal with their cases The second primary source consists of a sampling of documents known as the perd o de parte The term refers to the victim s pardon unique to the Iberian Peninsula which allowed individuals implicated in serious conflicts to have a voice in the judicial process By looking at a sample of these pardons found in notary collections from the sixteenth and seventeenth centuries Abreu Ferreira is able to show the extent to which women exercised their agency in a legal process that was otherwise male dominated

*Laughing Matters* Sara Beam, 2007 Sara Beam in revealing how theater and politics were intimately intertwined shows how the topics we joke about in public reflect and shape larger religious and political developments

**Aspects of Violence in Renaissance Europe** Jonathan Davies, 2016-04-08 Interest in the history of violence has increased dramatically over the last

ten years and recent studies have demonstrated the productive potential for further inquiry in this field. The early modern period is particularly ripe for further investigation because of the pervasiveness of violence. Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society. This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars. The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law. Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice. Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times.

A Social and Cultural History of Early Modern France William Beik, 2009-05-14. A magisterial history of French society between the end of the middle ages and the Revolution by one of the world's leading authorities on early modern France. Painting a vivid picture of the realities of everyday life he reveals how society functioned and how the different classes interacted. In addition to chapters on nobles peasants city people and the court the book sheds new light on the Catholic church the army popular protest the culture of violence gendered relations and sociability. This is a major new work that restores the ancien régime as a key epoch in its own right and not simply as the prelude to the coming Revolution.

**A History of Violence** Robert Muchembled, 2012. Presents a history of violence in Europe and discusses the theory that violence has actually been in decline since the thirteenth century.

**The King's Bench** Zoë A. Schneider, 2008. An examination of kings courts and lords courts in Normandy that opens a new chapter in the debate over absolutism sovereignty and the nature of the state in early modern France. Hidden deep in the countryside of France lay early modern Europe's largest bureaucracy twenty to thirty thousand royal bailiwick and seigneurial courts that served more than eighty five percent of the king's subjects. The crown courts and lords courts were far more than arenas of litigation in the modern sense. They had become the nexus of local governance by the middle of the seventeenth century a rich breeding ground for men who controlled the villages towns and bailiwicks of France. Yet even as the centralizing state was reaching its zenith under Louis XIV the king's largest permanent bureaucracy became increasingly alienated and cut adrift from the crown many decades before the French Revolution. In *The King's Bench* Zoë Schneider vividly brings to life the teeming world of the local courts with their magistrates and jailers townspeople and peasants. Together they contested that vital border where the private world of families and property collided with the public commonwealth. Schneider chronicles the transformation of

local governance after the mid seventeenth century as judges and their courts became the face of public order in the countryside With this richly detailed local study of Normandy in the seventeenth and early eighteenth centuries Zo Schneider opens a new chapter in the debate over absolutism sovereignty and the nature of the state in early modern France Zo A Schneider has taught at Georgetown University and with the Smithsonian Institution in Washington D C **Historicizing Life-Writing and Egodocuments in Early Modern Europe** James R. Farr, Guido Ruggiero, 2022-01-12 This volume historicizes the study of life writing and egodocuments focusing on early modern European reflections on the self self fashioning and identity Life writing and the study of egodocuments currently tend to be viewed as separate fields yet the individual as a purposive social actor provides significant common ground and offers a vehicle both theoretical and practical for a profitable synthesis of the two in a historical context Echoing scholars from a wide range of disciplines who recognize the uncertainty of the nature of the self these essays question the notion of the autonomous self and the attendant idea of continuous identity unfolding in a unified personality Instead they suggest that the early modern self was variable and unstable and can only be grasped by exploring selves situated in specific historical and social cultural contexts and revealed through the wide range of historical documents considered here The three sections of the volume consider first the theoretical contexts of understanding egodocuments in early modern Europe then the practical ways egodocuments from the period may be used for writing life histories today and finally a wider range of historical documents that might be added to what are usually seen as egodocuments
