Harry Rothschild,Leslie V. Wallace,2018-10-31 Behaving Badly in Early and Medieval China presents a rogues gallery of treacherous regicides impious monks cutthroat underlings ill bred offspring and disloyal officials It plumbs the dark matter of the human condition placing front and center transgressive individuals and groups traditionally demonized by Confucian annalists and largely shunned by modern scholars The work endeavors to apprehend the actions and motivations of these men and women whose conduct deviated from normative social cultural and religious expectations Early chapters examine how core Confucian bonds such as those between parents and children and ruler and minister were compromised even severed The living did not always reverently pay homage to the dead children did not honor their parents with due filiality a decorous distance was not necessarily observed between sons and stepmothers and subjects often pursued their own interests before those of the ruler or the state The elasticity of ritual and social norms is explored Chapters on brazen Eastern Han 25 220 mourners and deviant calligraphers audacious falconers volatile Tang 618 907 Buddhist monks and drunken Song 960 1279 literati reveal

social norms treated not as universal truths but as debated questions of taste wherein political and social expedience both determined and highlighted individual roles within larger social structures and defined what was and was not aberrant A Confucian predilection to valorize the civil and disparage the martial and Buddhist proscriptions on killing led literati and monks alike to condemn the cruelty and chaos of war The book scrutinizes cultural attitudes toward military action and warfare including those surrounding the bloody and capricious world of the Zuo Zhuan Chronicle of Zuo the relentless violence of the Five Dynasties and Ten States periods 907-979 and the exploits of Tang warrior priests a series of studies that complicates the rhetoric by situating it within the turbulent realities of the times By the end of this volume readers will come away with the understanding that behaving badly in early and medieval China was not about morality but perspective politics and power

Diamond Sutra Narratives Chiew Hui Ho, 2019-07-08 Contextualizing the sutra within a milieu of intense religious and cultural experimentation this volume unravels the sudden rise of Diamond Sutra devotion in the Tang dynasty against the backdrop of a range of social political and literary activities Through the translation and exploration of a substantial body of narratives extolling the efficacy of the sutra it explores the complex social history of lay Buddhism by focusing on how the laity might have conceived of the sutra and devoted themselves to it Corroborated by various sources it reveals the cult's effect on medieval Chinese religiosity in the activities of an empowered laity who modified and produced parasutric texts prompting the monastic establishment to accommodate to the changes they brought about

Shifting Stories Sarah M. Allen, 2020-10-26 Shifting Stories explores the tale literature of eighth and ninth century China to show how the written tales we have today grew out of a fluid culture of hearsay that circulated within elite society Sarah M Allen focuses on two main types of tales those based in gossip about recognizable public figures and those developed out of lore concerning the occult She demonstrates how writers borrowed and adapted stories and plots already in circulation and how they transformed them in some instances into unique and artfully wrought tales For most readers of that era tales remained open texts subject to revision by many hands over the course of transmission unconstrained by considerations of textual integrity or authorship Only in the mid to late ninth century did some readers and editors come to see the particular wording and authorship of a tale as important a shift that ultimately led to the formation of the Tang tale canon as it is envisioned today

The Chinese Myths Tao Tao Liu, 2022-11-03 This is a concise and entertaining guide to the complex tradition of Chinese mythology While many around the world are familiar with some aspects of Chinese myth through Chinese New Year festivities or the classic adventures of the Monkey King in Journey to the West few outside of China understand the richness of Chinese mythology influenced by Daoism Buddhism and Confucianism Offering much more than any competing overview of Chinese mythology The Chinese Myths not only retells the ancient stories but also considers their place within the patterns of Chinese religions culture and history Tao Tao Liu introduces us to an intriguing cast of gods goddesses dragons and monks including the ancient hero Yi the Archer who shot suns out of the sky to save humanity from a drought Guanyin the Goddess

of Mercy and Compassion to whom there are temples dedicated all over East Asia and Madame White Snake a water snake spirit in the guise of a mysterious widow her story adapted into countless films and operas This book is for anyone interested in China as knowing its myths allows readers to understand and appreciate its culture in a new light Domesticating the Dharma Richard D. McBride II, 2007-10-31 Western scholarship has hitherto described the assimilation of Buddhism in Korea in terms of the importation of Sino Indian and Chinese intellectual schools This has led to an overemphasis on the scholastic understanding of Buddhism and overlooked evidence of the way Buddhism was practiced on the ground Domesticating the Dharma provides a much needed corrective to this view by presenting for the first time a descriptive analysis of the cultic practices that defined and shaped the way Buddhists in Silla Korea understood their religion from the sixth to tenth centuries Critiquing the conventional two tiered model of elite versus popular religion Richard McBride demonstrates how the eminent monks royalty and hereditary aristocrats of Silla were the primary proponents of Buddhist cults and that rich and diverse practices spread to the common people because of their influence Drawing on Buddhist hagiography traditional narratives historical anecdotes and epigraphy McBride describes the seminal role of the worship of Buddhist deities in particular the Buddha kṣamuni the future buddha Maitreya and the bodhisattva Avalokiteśvara in the domestication of the religion on the Korean peninsula and the use of imagery from the Maitreya cult to create a symbiosis between the native religious observances of Silla and those being imported from the Chinese cultural sphere He shows how in turn Buddhist imagery transformed Silla intellectually geographically and spatially to represent a Buddha land and sacred locations detailed in the Avataśāstra Huayan jing Hwa m kyōng Emphasizing the importance of the interconnected vision of the universe described in the Avataśāstra McBride depicts the synthesis of Buddhist cults and cultic practices that flourished in Silla Korea with the practice oriented Hwa m tradition from the eighth to tenth centuries and its subsequent rise to a uniquely Korean cult of the Divine Assembly described in scripture
