Lindow, 2012-11-15 *Dancing the Tao* Le Guin and Moral Development takes an original approach to Ursula K Le Guin s work speculative fiction poetry and children s literature by considering her Taoist upbringing and then looking through the lens of moral development

theorists such as Carol Gilligan and Mary Field Belenky and psychologists such as Lenore Terr and Jennifer J Freyd It is the most comprehensive approach to Le Guin's moral thinking to date A particular emphasis is put on Le Guin's depiction of physical and sexual child abuse and its long term aftereffects such as post traumatic stress disorder The focus throughout the book is on how morality develops through self awareness and voice how moral decisions are made and how Le Guin challenges readers to reconsider their own moral thinking This book covers all of Le Guin's major works such as *The Left Hand of Darkness* *The Dispossessed* the *Earthsea Series* *Always Coming Home* *The Telling* and *Lavinia* and it also looks in depth at work that is rarely discussed such as Le Guin's early work her poetry and her picture books

scholars of children's literature *In the Mirror of the Past* Tomasz Ratajczak, Bogdan Trocha, 2014-09-26 These days we are ever more often confronted by overwhelming events Searching for a way to understand them we turn to mythic archetypes still present in our culture The authors of these essays pose questions about the reliability of the archetypes found in tradition history and scattered mythologemes The essays in this collection deal with the presence of mythic time in modern speculative fiction such as fantasy and alternate histories and discuss major mythologemes and their functions in popular literature and extra literary reality The authors show how mythopoeic fiction becomes a genetically modified mythic mirror in which we hope to see answers to vexing questions or just a reality superior to the ordinary one *In the Mirror of the Past Of Fantasy and History* is a collection of seven essays by American and Polish authors including Brian Attebery Terri Doughty and Marek Oziewicz with Mircea Eliade's concept of return from history to History as their underlying theme **The Lives of Texts** Andrzej Kowalczyk, Katarzyna Pisarska, 2014-07-24 *The Lives of Texts Exploring the Metaphor* examines various instances of textual subsistence implied by the title Drawing on the parallel between a text and a living organism the contributors analyze various literary texts ranging from the Middle Ages to postmodernity as well as film adaptations and the graphic novel Apart from the works of canonical writers attention is also drawn to some long forgotten authors along with the most recent instances of popular literature and culture The exploration of the title metaphor allows the contributors to trace life like phenomena e.g. textual birth maturation dissemination death and resurrection in the texts of writers so remote from each other as Layamon Thomas More Mary Shelley Charles Williams Ursula Le Guin A.S. Byatt Peter Ackroyd Iain Banks J.K. Rowling or Neil Gaiman HSA Heritage Auctions Rare Books Auction Catalog #6030 James Gannon, 2009-09 Island Genres, Genre Islands Ralph Crane, Lisa Fletcher, 2017-02-03 *Island Genres Genre Islands* moves the debate about literature and place onto new ground by exploring the island settings of bestsellers Through a focus on four key genres crime fiction thrillers popular romance fiction and fantasy fiction Crane and Fletcher show that genre is fundamental to both the textual representation of real and imagined islands and to actual knowledges and experiences of islands The book offers broad comparative readings of the significance of islandness in each of the four genres as well as detailed case studies of major authors and texts These include chapters on Agatha Christie's islands the role of the island in Bondspace the romantic islophilia of Nora Roberts's Three Sisters Island series and the archipelagic geography of Ursula Le Guin's Earthsea Crane and Fletcher's book will appeal to specialists in literary studies and cultural geography as well as in island studies **The Evolution of Modern Fantasy** Jamie Williamson, 2015-07-09 In this comprehensive study Williamson traces the literary history of the fantasy genre from the eighteenth century to its coalescence following the success of Tolkien's work in the 1960s While some studies have engaged with related material there has been no extended study specifically exploring the roots of this now beloved genre *Reading Matters* Ulrich Marzolph, 2023 The present book is a special gift for a special colleague and friend Defined as an Unfestschrift it gives colleagues students and friends of Regina Bendix an opportunity to

express their esteem for Regina's inspiration, cooperation, leadership and friendship in an adequate and lasting manner. The title of the present book *Reading Matters* is as close as possible to an English equivalent of the beautiful German double entendre *Erlesenes*, meaning both something read and something exquisite. Presenting matters for reading, the *Unfestschrift* unites short contributions about readings that mattered in some way or another for the contributors: readings that had an impact on their understanding of whatever they were at some time or presently are interested in. The term readings is understood widely. Since most of the invited contributors are academics, the term implies in the first place readings of an academic or scholarly nature. In a wider notion, however, readings also refer to any other piece of literature, the perception of a piece of art, a painting, a sculpture, a performance, listening to music, appreciating a folkloric performance or a fieldwork experience or just anything else whose reading or individual perception has been meaningful for the contributors in different ways. Contrary to a strictly scholarly treatment of a given topic in which the author often disappears behind the subject, the presentations unveil and highlight the contributor's personal involvement and thus a dimension of crucial importance for ethnographers such as the dedicatee.

The Anime Encyclopedia, 3rd Revised Edition Jonathan Clements, Helen McCarthy, 2015-02-09. Impressive, exhaustive, labyrinthine and obsessive. *The Anime Encyclopedia* is an astonishing piece of work. Neil Gaiman: Over one thousand new entries, over four thousand updates, over one million words. This third edition of the landmark reference work has six additional years of information on Japanese animation: its practitioners and products, plus incisive thematic entries on anime history and culture. With credits, links, cross-references and content advisories for parents and libraries. Jonathan Clements has been an editor of *Manga Max* and a contributing editor of *Newtype USA*. Helen McCarthy was founding editor of *Anime UK* and editor of *Manga Mania*.

The Late Works of Hayao Miyazaki Dani Cavallaro, 2014-11-19. Once a favorite of mainly art-house audiences, Hayao Miyazaki's films have enjoyed increasing exposure in the West since his *Spirited Away* won the Oscar for Best Animated Feature in 2003. The award signaled a turning point for Miyazaki's Studio Ghibli, bringing his films prominence in the media and driving their distribution in multiple formats. This book explores the closing decade of Miyazaki's career, 2004-2013, providing a close study of six feature films to which he contributed, including three he directed: *Howl's Moving Castle*, *Ponyo*, and *The Wind Rises*. Seven short films created for exclusive screening at Tokyo's Ghibli Museum are also covered, four of which were directed by Miyazaki.
