Englishmen is a visually arresting and richly informative tour of the British Empire at its height when its boundaries stretched from Cairo to Cape Town and from Winnipeg to Wagga Wagga. The empire on which the sun never sets embraced peoples as diverse as head hunting Dyaks, Eskimos, Fulani horsemen, Gulf sheikhs, Canadian hunters, Zoroastrian pilgrims and caparisoned maharajahs. In a sequence of thematic chapters examining every aspect of the Empire from the imperial monarchy to the armed forces and from district commissioners to dependent territories, Mad Dogs and Englishmen describes the shape and functioning of the largest imperium in world history. Each chapter consists of a lively and accessible essay accompanied by a vivid and array of captioned pictures evoking the fascinating spectacle that the British Empire presented to its citizens: the sights, scenes and organizations that shaped the world view of people in Britain and its colonies and Dominions beyond the seas.

Decolonizing African History Toyin Falola, 2024-04-05

Decolonizing African history involves efforts toward ending European intellectual hegemony over Africa's political, economic, historical and cultural ways; the reverse of its effects and the pursuit of absolute liberation and self-determination for Africa. As an intellectual undertaking, decolonizing African history emphasizes the study of African history from an African perspective as well as the transmission of that knowledge through Africanized curricula, instructional frameworks and epistemologies. The acknowledgment of marginalized peoples or groups as agents of their own histories and experiences is a critical component in decolonizing African history. Decolonizing African history is based on the premise that Africa must look inside and apply an alternative multidisciplinary approach to developing ideas for solutions to Africa's developmental problems, drawing inspiration from its own culture, history and creative imaginations. Essentially, African intellectuals must apply local theories and approaches to understand African problems, solve them and challenge the status quo's beliefs and practices of a distorted African image. The overall goal of this lecture is to liberate African knowledge as well as the adoption and adaptation of traditional African modes of knowing and knowledge creation. Hence, the lecture attempts to awaken Africans to set the records right in terms of African history and unlock Africa's hitherto suppressed immense potentials. It conveys the essence of decolonization in African history: its origins and nature, reasons, methods, goals and expected outcomes. It also argues for the development of an indigenous knowledge-based system in sync with African realities and capable of carving out autonomous models to alleviate Africa's political, economic, sociocultural and innovative leadership overdependence on the developed world. Finally, it submits that if African societies can be shown to be on par with other major societies throughout the world, there is no reason they should not be able to control their own destiny. It rekindles the belief that Africans will be proud of their identities one day, having freed themselves and their past from crippling colonial notions.

Tuck,2016-04-15 Influence is a slippery concept yet one of tremendous relevance for those wishing to understand global politics From debates on the changing sources of power in the international system through to analyses of its value as an alternative to the active use of force as a policy instrument influence has become a recurrent theme in discussions of international relations and foreign policy In order to provide a better understanding of the multifaceted and shifting nature of influence this volume looks at how the British government employed various forms of pressure and persuasion to achieve its goals across the twentieth century By focusing on Britain a global actor with great power objectives but declining physical means the collection provides a wide range of case studies to assess how influence was brought to bear on a wide array of non western cultures and societies It furthermore allows for an assessment of just how effective or ineffective British efforts were at influencing non Western targets over a hundred years of operations By shedding important light on the efficacy of British efforts to sustain and advance its interests in the twentieth century the volume will be of interest not only to historians but to anyone interested in contemporary problems surrounding the operation of influence as a foreign policy tool
