Tales From The Santone River Bottom A Cultural History:

Tales from the San'tone River Bottom: Origins Louise S. O'Connor, 1998-01-01 **Freedom Colonies** Thad Sitton, James H. Conrad, 2010-01-01 A history of independent African American settlements in Texas during the Jim Crow era featuring historical and contemporary photographs In the decades following the Civil War nearly a quarter of African Americans achieved a remarkable victory they got their own land While other ex slaves and many poor whites became trapped in the exploitative sharecropping system these independence seeking individuals settled on pockets of unclaimed land that had been deemed too poor for farming and turned them into successful family farms In these self sufficient rural communities often known as freedom colonies African Americans created a refuge from the discrimination and violence that routinely limited the opportunities of blacks in the Jim Crow South Freedom Colonies is the first book to tell the story of these independent African American settlements Thad Sitton and James Conrad focus on communities in Texas where blacks achieved a higher percentage of land ownership than in any other state of the Deep South The authors draw on a vast reservoir of ex slave narratives oral histories written memoirs and public records to describe how the freedom colonies formed and to recreate the lifeways of African Americans who made their living by farming or in skilled trades such as milling and blacksmithing They also uncover the forces that led to the decline of the communities from the 1930s onward including economic hard times and the greed of whites who found legal and illegal means of taking black owned land And they visit some of the remaining communities to discover how their independent way of life endures into the twenty first century Thad Sitton and James H Conrad have made an important contribution to African American and southern history with their study of communities fashioned by freedmen in the years after emancipation Journal of American History This study is a thoughtful and important addition to an understanding of rural Texas and the nature of black settlements Journal of Southern History **Big Thicket People** Larry Jene Fisher, Thad Sitton, C.E. Hunt, 2009-09-15 Living off the land hunting fishing and farming along with a range of specialized crafts that provided barter or cash income was a way of life that persisted well into the twentieth century in the Big Thicket of southeast Texas Before this way of life ended with World War II professional photographer Larry Jene Fisher spent a decade between the 1930s and 1940s photographing Big Thicket people living and working in the old ways His photographs the only known collection on this subject constitute an irreplaceable record of lifeways that first took root in the southeastern woodlands of the colonial United States and eventually spread all across the Southern frontier Big Thicket People presents Fisher s photographs in suites that document a wide slice of Big Thicket life people dogs camps deer hunts farming syrup mills rooster hogs and stock raising railroad tie making barrel stave making chimney building peckerwood sawmills logging turpentine town life church services and picnics funerals and golden weddings and dances and other amusements Accompanying each suite of images is a cultural essay by Thad Sitton who also introduces the book with a historical overview of life in the Big Thicket C E Hunt provides an informative biography of Larry

Jene Fisher *Land!* Graham Davis, 2002 The only successful European impresarios in mid nineteenth century Mexican Texas men authorized to bring immigrants to settle the vast spaces of Mexico's northern territories were Irish On their land grants Irish settlers founded Refugio and San Patricio and went on to take active roles in the economic and political development of Texas It required a hardy spirit and strong ambition to weather the perils that accompanied these opportunities the long journey shipwrecks hostile Indians injury and disease and Irish pioneers proved fit for the task They were not seeking relief from famine or English oppression in their own country These were vigorous strong willed people who possessed the monetary means to remove themselves from their insular surroundings What they were seeking and what they obtained was land Graham Davis tells this Irish Texan story of the search for land by recounting the experiences of the original empresarios John McMullen James McGloin James Power and James Hewetson and he finishes the book with an impressive description of the ranching empire of Power's nephew Thomas O Connor In between he examines the marriages commercial contacts political alliances and language ties that Mexicanized these successful entrepreneurs Living in the heart of the war zone some of the Irish settlers fought for independence while others remained loyal to the Mexican government that had made them citizens and given them land Davis offers a vivid picture of the hardships of pioneer life and the building of communities churches and schools He describes how Irish ranchers had the opportunity to thrive after the annexation of Texas and emphasizes their willing acceptance of Mexican ranching methods He makes a convincing case that the Irish came to Texas not as victims but as entrepreneurs and opportunists in search of land *Presidio La Bahía, 1721-1846* Kathryn Stoner O'Connor, 2001 **Cumulated Index to the Books** , 1999 American Book Publishing Record R.R.
