Back cover: The SAGE Encyclopedia of African Cultural Heritage in North America Mwalimu J. Shujaa, Kenya J. Shujaa, 2015-07-13. The Encyclopedia of African Cultural Heritage in North America provides an accessible, ready reference on the retention and continuity of African culture within the United States. Our conceptual framework holds first that culture is a form of self-knowledge and knowledge about self in the world as transmitted from one person to another. Second, that African people continuously create their own cultural history as they move through time and space. Third, that African descended people living outside of Africa are also contributors to and participate in the creation of African cultural history. Entries focus on illuminating Africanisms, cultural retentions traceable to an African origin and cultural continuities, ongoing practices and processes through which African culture continues to be created and formed. Thus, the focus is more culturally specific and less concerned with the broader transatlantic demographic, political, and geographic issues that are the focus of similar recent reference works. We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity. FEATURES: A two-volume A to Z work available in a choice of print or electronic formats; 350 signed entries, each concluding with cross-references and Further Readings; 150 figures and photos; Front matter consisting of an Introduction and a Reader's Guide organizing entries thematically to more easily guide users to related entries; Signed articles concluding with cross-references. **Kindergarten Primary Magazine**, 1917 The Universalist Leader, 1923 **The Christian Leader**, 1923 **The Nation**, 1883
