In the process students are exposed to major substantive areas of sociology and encouraged to critically think about their social world. The book's 27 essays from expert scholars in sociology and cultural studies explore the ways social life is presented, distorted, magnified or politicized in popular film. **Animating Difference** C. Richard King, Carmen R. Lugo-Lugo, Mary K. Bloodsworth-Lugo, 2010-01-16 *Animating Difference* studies the way race, ethnicity, sexuality and gender are portrayed in recent animated films from 1990 through the present. Ranging from *Aladdin* to *Toy Story* to *Up*, these popular films are key media through which children and adults learn about the world and how to behave. While racial and gender stereotypes may not be as obvious as they may have been in films of decades past, they often continue to convey troubling messages and stereotypes in subtle and surprising ways. *Latino Identity in Contemporary America* Martin Bulmer, John Solomos, 2014-01-02 This edited collection brings together original research papers that explore an important aspect of race and ethnic studies, namely the processes that are shaping the making of Latina and Latino identities in contemporary America. This is a question that has received much attention in the USA over the past decade and these papers make an original contribution to these debates. Much of this attention towards Latino communities in the USA can be seen as the outcome of public debates about the growth of these communities over the past three decades and the consequences of this growth for social and political change. The papers in this collection highlight some of the key facets of contemporary research in this field. As original pieces of research, they are at the forefront of current debates about Latino identities in contemporary America and they provide research-based insights into the changing experiences of these communities. This book was originally published as a special issue of *Ethnic and Racial Studies*. *LatinX Voices* Katie Coronado, Erica Kight, 2018-07-16 *LatinX Voices* is the first undergraduate textbook that includes an overview of Hispanic LatinX media in the U.S. and gives readers an understanding of how media in the United States has transformed around this audience. Based on the authors' professional and research experience and teaching broadcast media courses in the classroom, this text covers the evolving industry and offers perspective on topics related to Latin American areas of interest. With professional testimonials from those who have left their mark in print, radio, television, film and new media, this collection of chapters brings together expert voices in Hispanic LatinX media from across the U.S. and explains the impact of this population on the media industry today.
