Our Debt to the Dog Bryan D. Cummins,2013-11-07 When Homo sapiens sapiens met Canis lupus lupus millennia ago the result was Canis lupus familiaris the domestic dog Since that fateful encounter the dog has become arguably humankind's greatest creation The domestic dog is the most widely distributed species other than ourselves in the world being found virtually wherever people live and is also the most diversified of species with literally hundreds of recognized breeds While we have shaped the dog it too has helped shape human history in innumerable ways Our Debt to the Dog is a critical historical and cross cultural examination through the use of case studies of this most improbable 15 000 year relationship and an exploration of how this relationship shaped the history of the world It is also very much an apology to the dog because over the course of the partnership horrific acts were perpetrated against it intentionally and otherwise Our Debt to the Dog enriches our understanding of the dog and extends our appreciation for the profound complexity of past and present human canine relationships and the dog's contributions to our lives and our world *The Wolf in the Moonlight - A Fine Selection of Classic Tales of Wolves and Were-Wolves (Cryptofiction Classics - Weird Tales of Strange Creatures)* Various,2015-02-17 These early works by various authors were written between the Middle Ages and the early 20th century and we are now republishing them with a brand new introduction as part of our Cryptofiction Classics series The Wolf in the Moonlight contains a collection of short stories about the charismatic creature the wolf and includes The White Wolf of the Hartz Mountains by Frederick Marryat 1839 The Wolf by Guy de Maupassant 1882 Olalla by Robert Louis Stevenson 1885 and many more Homo sapiens and canis lupus have a long and chequered history together Amongst early agricultural societies the wolf was widely feared for its tendency to devastate supplies of livestock This fear was passed down through the generations codified in countless legends and folktales so that by the Early Middle Ages as academic and wolf expert Beryl Rowland puts it the wolf was established as the universal baleful symbol The Cryptofiction Classics series contains a collection of wonderful stories from some of the greatest authors in the genre including Ambrose Bierce Arthur Conan Doyle Robert Louis Stevenson and Jack London From its roots in cryptozoology this genre features bizarre fantastical and often terrifying tales of mythical and legendary creatures Whether it be giant spiders werewolves lake monsters or dinosaurs the Cryptofiction Classics series offers a fantastic introduction to the world of weird creatures in fiction *Up and Down Stairs* Jeremy Musson,2009-11-12 Country houses were reliant on an intricate hierarchy of servants each of whom provided an essential skill Up and Down Stairs brings to life this hierarchy and shows how large numbers of people lived together under

strict segregation and how sometimes this segregation was broken as with the famous marriage of a squire to his dairymaid at Uppark Jeremy Musson captures the voices of the servants who ran these vast houses and made them work From unpublished memoirs to letters wages newspaper articles he pieces together their daily lives from the Middle Ages through to the twentieth century The story of domestic servants is inseparable from the story of the country house as an icon of power civilisation and luxury This is particularly true with the great estates such as Chatsworth Hatfield Burghley and Wilton Jeremy Musson looks at how these grand houses were for centuries admired and imitated around the world
