Representing and Interrogating Dueling, Caning, and Fencing during the British Romantic Period William D. Brewer, 2025-02-21 Representing and Interrogating Dueling Caning and Fencing during the British Romantic Period examines Romantic era representations of physical interpersonal conflict and the ways in which they reflect challenge and subvert gender roles class hierarchies and racial and ethnic stereotypes Along with fictional depictions of one on one physical aggression by writers such as Mary Robinson William Godwin Walter Scott Lord Byron and Mary Shelley it considers historical accounts of honor violence While recent studies of honor disputes during the Romantic period have tended to focus on the codified formal duel this book considers other forms of physical aggression as well including unritualized duels assassinations canings public fencing bouts boxing matches and brawls William Brewer argues that many Romantic era Britons found the aristocratic chivalric code compatible with bourgeois commercial values Although the middle classes were on the ascendant during the decades before the Great Reform Bill British society continued to affirm the chivalric ideals of honor physical courage duty service loyalty and reverence toward women Romantic period representations and interrogations of physical conflict and toxic masculinity along with the affirmative portrayals in Mary Shelley's fiction of pacifistic and nurturing models of masculinity continue to resonate today and testify to the ongoing struggle to contend with and regulate interpersonal aggression    The Knight, the Cross, and the Song Stefan Vander Elst, 2017-03-16 The Knight the Cross and the Song offers a new perspective on the driving forces of crusading in the period 1100-1400 Although religious devotion has long been identified as the primary motivation of those who took the cross Stefan Vander Elst argues that it was by no means the only focus of the texts written to convince the warriors of Western Christianity to participate in the holy war Vander Elst examines how across three centuries historiographical works that served as exhortations for the Crusade sought specifically to appeal to aristocratic interests beyond piety They did so by appropriating the formal and thematic characteristics of literary genres favored by the knightly class the chansons de geste and chivalric romance By using the structure commonplaces and traditions of chivalric literature propagandists associated the Crusade with the decidedly secular matters to which arms bearers were drawn This allowed them to introduce the mutual obligation between lord and vassal family honor the thirst for adventure and even the desire for women as parallel and complementary motivations for Crusade making chivalric and literary concerns an indelible part of the ideology and practice of holy war Examining English Latin French and German texts ranging from the twelfth century Gesta Francorum and Chanson d'Antioche to the fourteenth century Kr nice von Pr zinlant and La Prise d'Alexandre The Knight the Cross and the Song traces the historical development and geographical spread of this innovative use of secular chivalric fiction both to shape the memory and interpretation of past events and to ensure the continuation of the holy war    FOREIGN VOICES Bernard Botes Krüger, 2013-09-13 Today's fiction is increasingly populated by multilingual urban societies in all their rich cultural variety contends Bernard Botes Krüger

ger making a persuasive case that readers need to hear authentic sounding dialogue from the mouths of foreign language characters something which mere translations into standard English can never adequately accomplish The concept of foreign language dialogue in fiction is not new many accomplished authors of the past have used a variety of subtle techniques to help their readers understand instances of foreign dialogue However those techniques have never been thoroughly isolated and examined until now Using Britain's Colonial Era literature as a starting point in this work the author discusses and systematically categorizes every type of device used in the past assembling in the process a veritable toolbox of techniques which aspiring writers can implement to enrich their multilingual dialogue     *The Talisman.* / Sir Walter Scott Walter Scott,1976
