five propositions for creating more relevant more caring schools There is a growing desire to reexamine education and learning Educators use the phrase school 2 0 to think about what schools will look like in the future Moving beyond a basic examination of using technology for classroom instruction Building School 2 0 How to Create the Schools We Need is a larger discussion of how education learning and our physical school spaces can and should change because of the changing nature of our lives brought on by these technologies Well known for their work in creating Science Leadership Academy SLA a technology rich collaborative learner centric school in Philadelphia founding principal Chris Lehmann and former SLA

teacher Zac Chase are uniquely qualified to write about changing how we educate. The best strategies they contend enable networked learning that allows research, creativity, communication and collaboration to help prepare students to be functional citizens within a modern society. Their model includes discussions of the following key concepts: Technology must be ubiquitous, necessary and invisible; Classrooms must be learner centric and use backwards design principles; Good technology can be better than new technology; Teachers must serve as mentors and bring real world experiences to students. Each section of *Building School 2.0* presents a thesis designed to help educators and administrators to examine specific practices in their schools and to then take their conclusions from theory to practice. Collectively the theses represent a new vision of school built off of the best of what has come before us but with an eye toward a future we cannot fully imagine.

But what happened to Afghanistan's children after the fall of the Taliban in 2001? In 2011, Deborah Ellis went to Kabul to find out. The twenty six boys and girls featured in this book range in age from ten to seventeen and they speak candidly about their lives now. They are still living in a country at war. Violence and oppression exist all around them. The situation for girls has improved but it is still difficult and dangerous. And many children, boys and girls, are still supporting their families by selling items like pencils and matches on the street. Yet these kids are weathering their lives with remarkable courage and hope, getting as much education and life experience and fun as they can. All royalties from the sale of *Kids of Kabul* will go to Right to Learn Afghanistan. **Key Text Features:** photographs, maps, glossary, introduction, historical context, additional information. **Correlates to the Common Core State Standards in English Language Arts:** CCSS ELA LITERACY RI 5.6 Analyze multiple accounts of the same event or topic, noting important similarities and differences in the point of view they represent; CCSS ELA LITERACY RI 6.6 Determine an author's point of view or purpose in a text and explain how it is conveyed in the text; CCSS ELA LITERACY RI 6.9 Compare and contrast one author's presentation of events with that of another, e.g. a memoir written by and a biography on the same person. ***The Secret Life of Pronouns*** James W.
