Schuchman,1988 Once described as the invisible handicap deafness remains a mystery to most Americans From the silent film era to 1986 when deaf actress Marlee Matlin won an Oscar for her performance in *Children of a Lesser God* Hollywood has reinforced stereotypical views of deafness and deaf people in nearly two hundred movies and television episodes front flap Constructing the Self in a Mediated World Debra Grodin, Thomas R. Lindlof, 1996-01-18 In today s media saturated world identities are no longer built solely within the close knit communities of family neighborhood school and work Today media are part of our world and therefore play an important role in the formulations of our identities or constructions of self In a truly postmodern mode *Constructing the Self in a Mediated World* not only brings together the usually segregated areas of interpersonal and mass communication but also incorporates works from scholars in sociology psychology and women s studies as well Each essay examines our understanding of self in a different context of mediated culture within a specific framework of interpretive theories such as critical theory social constructionist theory and feminism This volume provides insights into issues of self and identity in contemporary mediated culture Designed for advanced students and experienced researchers in communication both media and interpersonal sociology psychology and women s studies *Constructing the Self in a Mediated World* raises important questions and contributes greatly to its field **America on Film** Harry M. Benshoff, Sean Griffin, 2021-04-06 A comprehensive and insightful examination of the representation of diverse viewpoints and perspectives in American cinema throughout the 20th and 21st centuries *America on Film Representing Race Class Gender and Sexuality at the Movies* now in its third edition is an authoritative and lively examination of diversity issues within American cinema Celebrated authors and academics Harry M Benshoff and Sean Griffin provide readers with a comprehensive discussion and overview of the industrial socio cultural and aesthetic factors that contribute to cinematic representations of race class gender sexuality and ability The book incorporates several different theoretical perspectives including film genre auteurism cultural studies Orientalism the male gaze feminism and queer theory The authors examine each selected subject via representative films figures and movements Each chapter also includes an in depth analysis of a single film to illuminate and inform its discussion of the chosen topic *America on Film* fearlessly approaches and tackles several controversial areas of representation in film including the portrayal of both masculinity and femininity in film and African and Asian Americans in film It devotes the entirety of Part V

to an analysis of the depiction of sex and sexuality in American film with a particular emphasis on the portrayal of homosexuality Topics covered include The structure and history of American filmmaking including a discussion of the evolution of the business of Hollywood cinema African Americans and American film with a discussion of *BlacKkKlansman* informing its examination of broader issues Asian Latin x and Native Americans on film Classical Hollywood cinema and class with an in depth examination of The Florida Project Women in classical Hollywood filmmaking including a discussion of the 1955 film *All that Heaven Allows* Perfect for undergraduate and graduate students in film media and diversity related courses the book also belongs on the shelves of anyone interested in diversity issues in the context of American studies communications history or gender studies Lastly it s ideal for use within corporate diversity training curricula and human relations training within the entertainment industry

*Pastoral and Spiritual Care Across Religions and Cultures II* Isabelle Noth, Claudia Kohli Reichenbach, 2019-05-20 This diverse compilation of contributions explores the pressing topic of how to provide appropriate spiritual care in the context of human migration The psycho spiritual dimensions of suffering particular to human migration such as social exclusion alienation and various types of trauma are considered from various disciplinary perspectives Complex but important questions are explored How might various methods of self healing be better supported by spiritual caregivers How can faith communities cultivate more supportive contexts responsive to the particular needs prompted by migration The International Association for Spiritual Care IASC founded in 2015 in Bern Switzerland is dedicated to the promotion of richer interdisciplinary dialogue amongst people from different cultural and religious backgrounds The volume starts from the premise that failures to cultivate deeper respect for diversity risks cultural misunderstandings and relational harm in the context of helping relationships and therefore personal encounters and scholarly exchanges between Muslims Jews Christians Buddhists Hindus Sikhs people without religious affiliation and atheists are critically important and unquestionably valuable These contributions reflect the fruits of the inaugural conference of the IASC which was held at the University of Bern and in the House of Religions in June 2016

*Armed Forces Talk* , *The Astonished Muse* Reuel Denney, This classic in communications is also a path breaking study of American popular culture combining the thoughtful sympathy of Gilbert Seldes with the critical sensitivity for form of H L Mencken Denney accomplishes this by introducing new approaches to understanding products of popular culture with out either moralizing over the profit motives of the producers or sermonizing about the base motives of consumers seeking mere entertainment His forty page introduction to this new edition is a major statement reexamining the themes in the original 1957 volume *The Astonished Muse* analyzes a wide and varied sample of both the active and the passive leisure activities of Americans ranging from television and science fiction to organized football and skyscraper design On its initial appearance the book was praised as a work that combines a searching formal analysis of the popular arts with a close historical grasp of their genres and a sociological sense of their audiences Its themes of critical competence and performance anticipate current

concerns with reader centered and linguistic approaches to popular literature In an economic historical sense this book presages the rise of popular arts and media as rivals in scale to manufacturing industries in the United States In a political sense it affirms audience selectivity Above all it takes a quiet stand against attempts to devalue decay and censor the popular arts under banners of morality childhood innocence puritanical religion and other limits to free expression Collecting the New Bruce Altshuler,2007-08-12 Twelve distinguished curators discuss the questions challenges faced by museums in acquiring preserving contemporary art

Verbrugge, 2012-06-21 During the twentieth century opportunities for exercise sports and recreation grew significantly for most girls and women in the United States Female physical educators were among the key experts who influenced this revolution Drawing on extensive archival research this book examines the ideas experiences and instructional programs of white and black female physical educators who taught in public schools and diverse colleges and universities including coed and single sex public and private and predominantly white or black institutions Working primarily with female students women physical educators had to consider what an active female could and should do in comparison to an active male Applying concepts of sex differences they debated the implications of female anatomy physiology reproductive functions and psychosocial traits for achieving gender parity in the gym Teachers interpretations were contingent on where they worked and whom they taught They also responded to broad historical conditions including developments in American feminism law and education society s changing attitudes about gender race and sexuality and scientific controversies over the nature and significance of sex differences While deliberating fairness for female students white and black women physical educators also pursued equity for themselves as their workplaces and nascent profession often marginalized female and minority personnel Questions of difference and equity divided the field throughout the twentieth century while some women teachers favored moderate views and incremental change others promoted justice for their students and themselves by exerting authority at their schools critiquing traditional concepts of difference and devising innovative curricula Connecting the history of science race and gender studies American social history and the history of sport this book sheds new light on physical education s application of scientific ideas the politics of gender race and sexuality in the domain of active bodies and the enduring complexities of difference and equity in American culture *Official Register and Directory of the Women's Clubs in America* ,1920 Racism and God-Talk Ruben Rosario Rodriguez, 2008-07-19 2011 Winner of the Book Awards Contest in the Discipline of Theology Presented by Alpha Sigma Nu The apostle Paul wrote that All of you are one in Christ Jesus Given Paul s vision of God s kingdom defined by the breakdown of all distinctions and relationships of domination no longer Jew or Greek slave or free male or female how do we make sense of ethnic particularity within the church s theological formulations Racism and God Talk explores the biblical and religious dimensions of North American racism while highlighting examples of resistance within the Christian religious tradition Social historians have seldom

analyzed the problematic of race from a primarily theological perspective This volume undertakes a critical examination of explicitly theological and confessional perspectives for understanding and transforming North American racism Rosario Rodriguez offers insights from Latino a theology for broader scholarly and social discussions concerning racism borders and immigration The first to analyze race and racism from a Latino a theological perspective the volume makes use of a broadened conceptualization of mestizaje or mutual cultural exchange to challenge the church to recognize the effects of racial and ethnic particularity in all theological construction *America, History and Life* ,2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada **The Great Disappearing Act** Christina A. Ziegler-McPherson,2021-12-10 Where did all the Germans go How does a community of several hundred thousand people become invisible within a generation This study examines these questions in relation to the German immigrant community in New York City between 1880 1930 and seeks to understand how German American New Yorkers assimilated into the larger American society in the early twentieth century By the turn of the twentieth century New York City was one of the largest German speaking cities in the world and was home to the largest German community in the United States This community was socio economically diverse and increasingly geographically dispersed as upwardly mobile second and third generation German Americans began moving out of the Lower East Side the location of America s first Kleindeutschland Little Germany uptown to Yorkville and other neighborhoods New York s German American community was already in transition geographically socio economically and culturally when the anti German One Hundred Percent Americanism of World War I erupted in 1917 This book examines the structure of New York City s German community in terms of its maturity geographic dispersal from the Lower East Side to other neighborhoods and its ultimate assimilation to the point of invisibility in the 1920s It argues that when confronted with the anti German feelings of World War I German immigrants and German Americans hid their culture especially their language and their institutions behind closed doors and sought to make themselves invisible while still existing as a German community But becoming invisible did not mean being absorbed into an Anglo American English speaking culture and society Instead German Americans adopted visible behaviors of a new more pluralistic American culture that they themselves had helped to create although by no means dominated Just as the meaning of German changed in this period so did the meaning of American change as well due to nearly 100 years of German immigration **Jazz and Postwar French Identity** Elizabeth Vihlen McGregor,2016-06-23 In the context of a shifting domestic and international status quo that was evolving in the decades following World War II French audiences used jazz as a means of negotiating a wide range of issues that were pressing to them and to their fellow citizens Despite the fact that jazz was fundamentally linked to the multicultural through its origins in the hands of African American musicians happenings within the French jazz public reflected much about France s postwar society In the minds of many jazz was connected to youth culture but instead of challenging traditional gender expectations the music tended to reinforce long held stereotypes

French critics musicians and fans contended with the reality of American superpower strength and often strove to elevate their own country's stature in relation to the United States by finding fault with American consumer society and foreign policy aims Jazz audiences used this music to condemn American racism and to support the American civil rights movement expressing strong reservations about the American way of life French musicians lobbied to create professional opportunities for themselves and some went so far as to create a union that endorsed preferential treatment for French nationals As France became more ethnically and religiously diverse due to immigration from Africa Asia and the Caribbean French jazz critics and fans noted the insidious appearance of racism in their own country and had to contend with how their own citizens would address the changing demographics of the nation even if they continued to insist that racism was more prevalent in the United States As independence movements brought an end to the French empire jazz enthusiasts from both former colonies and France had to reenvision their relationship to jazz and to the music's international audiences In these postwar decades the French were working to preserve a distinct national identity in the face of weakened global authority most forcefully represented by decolonization and American hegemony Through this originally African American music French listeners commentators and musicians participated in a process that both challenged and reinforced ideas about their own culture and nation
