Talking Across The World The Love Letters Of Olaf Stapledon And Agnes Miller 1913 1919:

Letters Across the World Olaf Stapledon, Agnes Zena Miller, Robert Crossley, 1987 **Talking Across the World** Olaf Stapledon, Agnes Zena Miller, 1987 The story of a remarkable epistolary courtship that endured despite war social turmoil rival suitors prolonged separation **Olaf Stapledon** Robert Crossley, 1994-07-01 William Olaf Stapledon is best remembered for the extraordinary works of speculative fiction he published between 1930 and 1950 As a novelist he was known as the spokesman for the Age of Einstein and has influenced writers as diverse as Virginia Woolf Arthur C Clarke and Doris Lessing This biography is the first to draw on a vast body of unpublished and private documents interviews correspondence archival material and papers in private hands to reveal fully the internal struggles that shaped Stapledon's life and reclaim for public attention a distinctive voice of the modern era Late in his life in an unpublished letter to the future Stapledon unwittingly provided the rationale for his biography It is just possible that my very obscurity may fit me to speak more faithfully for my period than any of its great unique personalities A pacifist in World War I an advocate of European unity and world government one of the first teachers in the Workers Educational Association and an early protestor against apartheid Stapledon turned utopian beliefs into practical politics With roots in the shipping worlds of Devon Liverpool and the Suez Canal he was transformed from a self-described provincial on the margins of English literary and political life into a visionary idealist who attracted the attention of scientists journalists and novelists and given his left wing political affiliations even the F B I Stapledon's novels *Last and First Men* *Star Maker* *Odd John* and *Sirius* have gathered a passionate following and they have seldom been out of print in the last twenty five years But the personal experiences and political commitments that shaped this creative work have until now barely been known Robert Crossley's work reveals how in public and in private in his social activism as in his fiction Olaf Stapledon embodied many of the modern era's anxieties and hopes that allow his works to continue to speak to and for the future Love Letters of the Great War Mandy Kirkby, 2014-01-16 From the private papers of a young Winston Churchill to the tender notes of an unknown Tommy in the trenches *Love Letters of the Great War* is a collection of profound intimate and heartfelt letters written during World War One Many of the letters collected here are eloquent declarations of love and longing others contain wrenching accounts of fear jealousy and betrayal and a number share sweet dreams of home But in all the correspondence whether from British American French German Russian Australian and Canadian troops in the height of battle or from the heartbroken wives and sweethearts left behind there lies a truly human portrait of love and war A century on from the First World War these letters offer an intimate glimpse into the hearts of men and women separated by conflict and show how love can transcend even the bleakest and most devastating of realities Edited and introduced by Mandy Kirkby with a foreword from Women's Prize winner Helen Dunmore **Civilians in a World at War, 1914-1918** Tammy M. Proctor, 2010-08-30 This work explores the different ways civilians work and function in a war situation and broadens our understanding of the civilian to encompass munitions

workers nurses laundresses refugees aid workers and children who lived and worked in occupied zones on home and battle fronts and in the spaces in between Global in scope spanning the Eastern Western Italian East African and Mediterranean fronts the author examines in detail the role of experts in the war the use of forced labor and the experiences of children in the combatant countries As in many wars civilians on both sides of WWI were affected and vast displacements of the populations shaped the contemporary world in countless ways redrawing boundaries and creating or reviving lines of ethnic conflict

International Handbook of Love Claude-Hélène Mayer, Elisabeth Vanderheiden, 2021-05-04 This handbook is the winner of the William B Gudykunst Award for Outstanding Book in 2023 given by the International Academy of Intercultural Research This handbook includes state of the art research on love in classical modern and postmodern perspectives It expands on previous literature and explores topics around love from new cultural intercultural and transcultural approaches and across disciplines It provides insights into various love concepts like romantic love agape and eros in their cultural embeddedness and their changes and developments in specific cultural contexts It also includes discussions on postmodern aspects with regard to love and love relationships such as digitalisation globalisation and the fourth industrial revolution The handbook covers a vast range of topics in relation to love aging health special needs sexual preferences spiritual practice subcultures family and other relationships and so on The chapters look at love not only in terms of the universal concept and in private intimate relationships but apply a broad concept of love which can also for example be referred to in postmodern workplaces This volume is of interest to a wide readership including researchers practitioners and students of the social sciences humanities and behavioural sciences In the 1970s through the 90s I was told that globalization was homogenizing cultures into a worldwide monoculture This volume as risky and profound as the many adventures of love across our multiplying cultures are proves otherwise The authors revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is But that s what love does It communicates what is offers what can be and pleads for what must be I know you ll enjoy this wonderful book as much as I do Jeffrey Ady Associate Professor retired Public Administration Program University of Hawaii at Manoa Founding Fellow International Academy for Intercultural Research The International Handbook of Love is far more than a traditional compendium It is a breath taking attempt to synthesize our anthropological and sociological knowledge on love It illuminates topics as diverse as Chinese love one night stands teen romance or love of leaders and many more This is a definitive reference in the field of love studies Eva Illouz author of *The End of Love* A sociology of Negative relationships Oxford University Press This is not a volume to be read in a single sitting though I almost did due to a protracted hospital stay nor is it romantic or inspirational reading though in some cases I had hoped for more narrative examples and case studies Rather it is a highly diverse scholarly effort a massive resource collection of research papers on love in a variety of contexts personal and professional settings and cultures The work is well referenced providing

a large number of resources for deeper exploration We owe our thanks to the authors and editors of this handbook for work well done though that word in the title should not lead readers to suspect that enlightening as it is this book is a vade mecum or practical tour guide that provides ready solutions to the vicissitudes and challenges of our love lives Reviewed by Dr George F Simons on amazon com Please see Claude H l ne Mayer s interview related to the handbook in LeanHealth Talks published by Bernadette Bruckner <https://www.youtube.com/watch?v=yVNXA9sWuWo> Please see Claude H l ne Mayer s interview related to the handbook published In Iran News Daily <https://newspaper.irandaily.ir/nid/6941/pid/6/type/0>

Turing's Cathedral George Dyson,2012-12-11 A Wall Street Journal Best Business Book of 2012 A Kirkus Reviews Best Book of 2012 In this revealing account of how the digital universe exploded in the aftermath of World War II George Dyson illuminates the nature of digital computers the lives of those who brought them into existence and how code took over the world In the 1940s and 50s a small group of men and women led by John von Neumann gathered in Princeton New Jersey to begin building one of the first computers to realize Alan Turing s vision of a Universal Machine The codes unleashed within this embryonic 5 kilobyte universe less memory than is allocated to displaying a single icon on a computer screen today broke the distinction between numbers that mean things and numbers that do things and our universe would never be the same Turing s Cathedral is the story of how the most constructive and most destructive of twentieth century inventions the digital computer and the hydrogen bomb emerged at the same time

Imagining Mars Robert Crossley,2011-01-03 Mars in the human imagination from the invention of the telescope to the present For centuries the planet Mars has captivated astronomers and inspired writers of all genres Whether imagined as the symbol of the bloody god of war the cradle of an alien species or a possible new home for human civilization our closest planetary neighbor has played a central role in how we think about ourselves in the universe From Galileo to Kim Stanley Robinson Robert Crossley traces the history of our fascination with the red planet as it has evolved in

literature both fictional and scientific Crossley focuses specifically on the interplay between scientific discovery and literary invention exploring how writers throughout the ages have tried to assimilate or resist new planetary knowledge Covering texts from the 1600s to the present from the obscure to the classic Crossley shows how writing about Mars has reflected the desires and social controversies of each era This astute and elegant study is perfect for science fiction fans and readers of popular science *Science Fiction and Fantasy Literature, 1975-1991* R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992 Science fiction constitutes one of the largest and most widely read genres in literature and this reference provides bibliographical data on some 20 000 science fiction fantasy and horror fiction books as well as nonfiction monographs about the literature A companion to Reginald s *Science Fiction and Fantasy Literature 1700 1974* Gale 1979 the present volume is alphabetically arranged by approximately 10 000 author names The entry for each individual work includes title publisher date and place published number of pages hardbound or paperback format and type of book novel anthology etc Where appropriate entries also provide translation notes series information pseudonyms and remarks on special features such as celebrity introductions Includes indexes of titles series awards and doubles for locating volumes containing two novels Annotation copyright by Book News Inc Portland OR *Euro-Librarianship* Assunta Pisani, 2018-10-24 Euro Librarianship focuses on strategies for working toward cooperation between libraries throughout Europe and the United States to provide the best access and information to research materials as possible Chapters by several authors in their original languages with English abstracts give this book a unique international appeal Common difficulties such as fiscal constraints and rising book and serial prices are discussed Stressing enhanced communication and shared responsibilities this new volume helps bring libraries of all countries closer to the resource sharing capabilities that allow a scholars and researchers much wider access to information than is available today In this timely new book many of the papers that were presented at the Second Western European Specialists WESS International Conference are brought together to be read and studied by everyone **Darwin Among The Machines** George B. Dyson, 2012-09-04 As timely now as it was when it was first published in 1997 *Darwin Among the Machines* tells the story of humankind s long journey into the digital age Historian of technology George Dyson traces the course of the information revolution illuminating the lives and work of visionaries from Thomas Hobbes to John von Neumann who foresaw the development of artificial intelligence artificial life and artificial mind Weaving a convincing occasionally frightening narrative of the evolution of the global network Dyson explores the limits of Darwinian evolution to suggest what lies ahead Computer programs and worldwide networks are combining to produce an evolutionary theater in which the distinctions between nature and technology are increasingly obscured he argues We are living in the midst of an experiment one that echoes the prehistory of human intelligence and the origins of life Now in a new paperback edition this classic work on the emergence of collective mechanical intelligence will resonate for generations to come *The Intimate Archive* Maryanne Dever, Ann Vickery, Sally Newman, 2009 The *Intimate Archive* examines the issues

involved in using archival material to research the personal lives of public people in this case of Australian writers Marjorie Barnard 1897 1987 Aileen Palmer 1915 1988 and Lesbia Harford 1891 1927 The book provides an insight into the romantic experiences of the three women based on their private letters diaries and notebooks held in public institutions Maryanne Dever Ann Vickery and Sally Newman consider the ethical dilemmas that they faced while researching private material in particular of making conclusions based on material that was possibly never intended by its subjects to be consumed publicly In this sense the book is both an introverted contemplation of private affairs and an extroverted meditation on the right to acquire and assume intimate knowledge

Sisters in Peace Kate Laing, 2023-11-03 Is preparing for war the best means of preserving peace In *Sisters in Peace* Kate Laing contends that this question has never been solely the concern of politicians and strategists She maps successive generations of twentieth century women who were eager to engage in political debate even though legislative and cultural barriers worked to exclude their voices In 1915 during the First World War the Women's International Congress at The Hague was convened after alarmed and bereaved women from both sides of the conflict insisted that their opinions on war and the pathway to peace be heard From this gathering emerged the Women's International League for Peace and Freedom WILPF which to this day campaigns against militarism and nuclear weapons In Australia the formation of a section of WILPF connected political women to a worldwide network that sustained their anti war activism throughout the last century In examining the rise of WILPF in Australia *Sisters in Peace* provides a gendered history of this country's engagement with the politics of internationalism This is a history of WILPF women who committed to peace activism even as Australia's national identity and military allegiances shifted over time a history that has until now been an overlooked part of the Australian peace movement
