Some of mistakes are accommodated in society as people use such kinds of communicative impulse to express their issues and concerns. Initiative to reduce chances of mistakes to a considerable level is very important. These days we have several digital media and print media to equip us differently to make us competent enough in reducing chances of errors. This publication will provide an ample scope to move through all such mistakes people often commit in their daily life. We also address patterns of questions examiners ask to judge our skills related to error corrections.
