The Food Question Profits Versus People:

The Food Question Henry Bernstein, Maureen Mackintosh, Charlotte Martin, 2014-04-08 Wasteful over consumption by some in the developed countries and the continuing in some cases worsening hunger of millions in the Third World is a dramatic indication that food problems are urgent Anger is not enough and this book which comes from the research group on Development Policy and Practice in the Open University DPP aims to provide some of the analytical tools needed for serious action Case studies to show ways in which food aid has been used by donor countries for political ends descriptions of the relationships between markets and human needs articles on the problems associated with the feminization of poverty pieces on patterns and trends of food production analysis of land reform an evaluation of the effects of biotechnology are all part of this rich and lively collection of articles written specially for this book **Reclaiming the Land** Sam Moyo, Paris Yeros, 2005-02 Agrarian reform in Brazil under neoliberalism evaluation and perspectives Lauro Mattei **State and Law in the Development Process** Ann Seidman, 2016-07-27 Ann and Robert Seidman have written an invaluable theoretical and practical guide for those concerned with the role of the state in development Bereket Habte Selassie Professor of African Studies Howard University State and Law in the Development Process is a scholarly work and essential reading for undergraduate and postgraduate students taking courses on the Third World its history and development It provides an excellent bibliography and analysis which sets out the fundamentals of research into the future development of the Third World Expertly written it embodies a research methodology which is linked to a theoretical perspective John F McEldowney Senior Lecturer in Law University of Warwick The post 1945 collapse of colonialism and the emergence of new nationalist governments seemed to promise plenty for all third world peoples Four decades later those promises lay in shards This book proposes a theory to explain the failure of third world states to transform the institutions that produce poverty and powerlessness for the mass of the population Based on that theory it proposes a methodology designed to facilitate the democratic exercise of state power through law to empower third world peoples to play an effective role in building a peaceful world of plenty for all *Towards A New Political Economy Of Agriculture* William H Friedland, 2021-11-28 The emergence of a truly global economy in the 1970s and the need to understand the subsequent changes in economic structure provided the impetus for this synthesis of the sociology of agriculture The book offers the first formulations of a political economy theory that explains the transnational social and production relations of food and agriculture Drawing upon studies of labour technology the state and gender the contributors put forward a basis for reassessing and restating the intellectual framework of agriculture *Debating Development Discourse* David B. Moore, Gerald J. Schmitz, 2016-07-27 This book combines critical historical analysis and case studies of the theory and practice of post 1945 international development Beginning with a Gramscian analysis of institutional and academic development discourse continuing with critiques of international institutions current neo liberal economic and governance practices and followed by studies of African moral

opposition to structural adjustment s scientific capitalism South African housing struggles Zimbabwean development strategies Costa Rican agrarian NGO s and northern Albertan public environmental hearings it advocates deepening radical and popular participatory democracy *Environmental Management and Development* Christopher J. Barrow,2005 The environment and its management has been and continues to be a very topical issue Existing environment and development texts place emphasis is on listing problems making warnings and voicing advocacy but by focusing on environmental management this informative book offers a very different perspective Moving on from the usual much discussed viewpoints Barrow looks towards practical management and problem solving techniques He clarifies the definition nature and role of environmental management in development and developing countries beginning with an introduction to the key terms issues and tools of environmental management which are linked and developed in later chapters and concluding by discussing who pays for environmental management and its future in developing countries Written by an experienced and well known author this clear user friendly book ideal for students of resource management geography and development studies makes excellent use of chapter summaries boxed case studies annotated further readings and websites discussion questions and illustrations

The Earthscan Reader in Sustainable Development John Kirkby,Phil O'Keefe,Lloyd Timberlake,2023-01-23 Such a huge number of books journals and papers have been devoted to defining assessing and implementing sustainable development that students and other readers face information overload Earthscan alone has published hundreds of essays and books on the subject Now though the most authoritative writings have been carefully assessed and collected together in the Earthscan Reader in Sustainable Development The contributions included span five years of the debate and cover all the principle themes the history of the concept the problems in defining it the issues surrounding it and national international policies and schemes to implement it For ease of use the essays have been split into key subject areas such as agriculture population and the commons and they include practical case studies and examples together with analyses from a number of different viewpoints from both the North and South These seminal essays will provide readers with a unique overview of the subject as well as the long awaited basic course material for students of environmental studies economics geography politics planning and the social sciences **The Comparative Political Economy of Development** Barbara Harriss-White,Judith Heyer,2009-12-21 Illustrates the enduring relevance and vitality of the comparative political economy of development approach and presents the relation between theory and empirical material in an interactive way This title offers an explanation of what is happening in the continent of Africa and the sub continent of South Asia *Politics and Society in the Developing World* Peter Calvert,Susan Calvert,2014-06-03 In a world seemingly surfing a wave of unprecedented affluence it is sobering to be reminded that only thirty out of nearly two hundred countries can really be classified as advanced industrialized countries Eighty per cent of the world s population lives in the developing world This popular concise introduction scrutinises the developing world its varied political institutions and the key social economic and environmental

issues at the heart of contemporary debates Wide ranging and clearly written *Politics and Society in the Developing World* begins by providing a brisk survey of the major theoretical and methodological interpretations of the social impact of development It then details the factors which determine the parameters of the developing world before moving on to examine its infrastructure and the crises currently facing it The book also covers the social and economic contexts of developing societies the international arena and its impact on the developing world state building and the tension between dictatorship and democratization The book focuses on four policy areas aid trade tourism and the environment

The Political Economy of African Famine R. E. Downs, Donna O. Kerner, Stephen P. Reyna, 2019-07-19 Originally published in 1991 This volume explores the combination of political and economic forces that influence different levels of food supply The book begins with a discussion of famine theories ranging from cultural ecology to neo Marxism Following this survey is a series of essays by anthropologists geographers economists and development practitioners that explores the role of Western institutions in African famine analyzes famine in particular countries and documents the relationship between famine and gender This book takes an unusually broad look at famine by including analyses of countries where hunger has rarely been studied and by examining African famine from both African and Western perspectives Its concluding proposals for eradicating famine make innovative and provocative contributions to current global debates on food and nutrition
